# Supreme Energy Efficiency

---

- High Level SEER/ SCOP
- Peak Current Control
- Mode Lock

# High Level SEER/ SCOP

Supreme Energy Efficiency

The advanced technologies of LG achieve the lowest energy consumption, especially in cooling as can be seen from the SEER class given according to ErP Regulations.

## High Efficiency

- Certified by Eurovent
- Based on 4.1, 5.3 & 6.2 kW

### SEER / SCOP class (ErP regulation)

kW	4.1	4.7	5.3	6.2	7	7.9	8.8
SEER	8.50	7.80	8.50	8.50	8.00	8.00	8.20
	<b>A+++</b>	<b>A++</b>	<b>A+++</b>	<b>A+++</b>	<b>A++</b>	<b>A++</b>	<b>A++</b>
SCOP	4.20	4.20	4.4	4.4	4.40	4.20	4.20
	<b>A+</b>	<b>A+</b>	<b>A+</b>	<b>A+</b>	<b>A+</b>	<b>A+</b>	<b>A+</b>

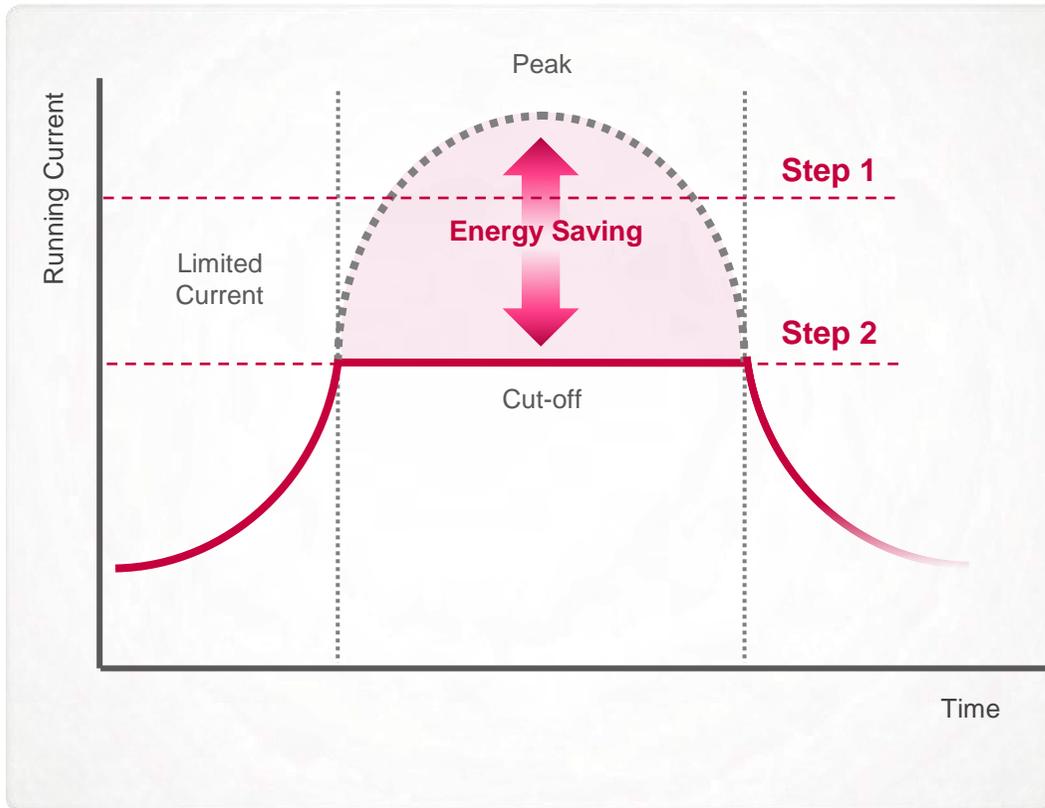

• Energy Labeling (Europe Only)

	SEER	SCOP
<b>A+++</b>	SEER ≥ 8.5	SCOP ≥ 5.1
<b>A++</b>	6.1 ≤ SEER < 8.5	4.6 ≤ SCOP < 5.1
<b>A+</b>	5.6 ≤ SEER < 6.1	4.0 ≤ SCOP < 4.6
<b>A</b>	5.1 ≤ SEER < 5.6	3.4 ≤ SCOP < 4.0
<b>B</b>	4.6 ≤ SEER < 5.1	3.1 ≤ SCOP < 3.4
<b>C</b>	4.1 ≤ SEER < 4.6	2.8 ≤ SCOP < 3.1
<b>D</b>	3.6 ≤ SEER < 4.1	2.5 ≤ SCOP < 2.8

# Peak Current Control

Supreme Energy Efficiency

Through the peak current control technology, it is possible to save the energy and operation cost. User can choose either cooling-only or heating-only operation by setting the dip switch.

※ When using Peak current control, the cooling capacity may not be sufficient.

- By limiting to the maximum running current, the air conditioner can avoid running on the peak current level.
- This function can reduce energy cost during peak periods when electricity is more expensive.

## [How to set dip switch]

1 Max power consumption : 2.5 kW

2 Max power consumption : 1.9 kW

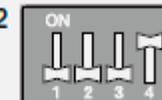

Step1

24%  
Save!

3 Max power consumption : 1.7 kW

Step2

32%  
Save!

• 7.0kW model  
• LG Internal test result

※ Cooling : Indoor Ambient Temp. 27°CDB / 19°CWB,  
Outdoor Ambient Temp. 35°CDB / 24°CWB

# Mode Lock

Supreme Energy Efficiency

Air conditioning system can be locked to operate cooling only or heating only *by wired remote controller or adjusting dip switch\**.

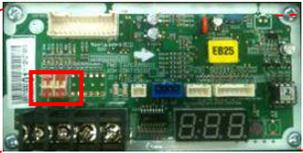

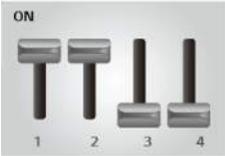

Cooling Only

Heating Only

### Dip Switch Setting

\* Dip switch setting has the priority

## High Operation Reliability

---

- Corrosion Resistance Black Fin
- Quick Cooling & Heating
- Twin Rotary Inverter Compressor
- Wide Operation Range

# Corrosion Resistance Black Fin

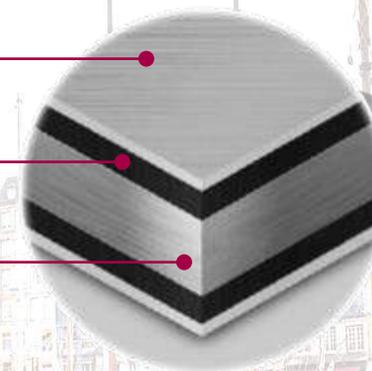

High Operation Reliability

The black coating with enhanced epoxy resin is applied for strong protection from various corrosive external conditions such as salt contamination and air pollution including fumes.

## Longer Lifespan, Lower Maintenance Costs

- **Hydrophilic film (Water flow)**  
The Hydrophilic coating minimizes moisture buildup on the fin.
- **Acryl + Epoxy + Melamine resin (Corrosion resistant)**  
The Black coating provides strong protection from corrosion
- **Aluminum Fin**

※ Test result

Corrosion improved aluminum fin (Black II)

Resists 27 years simulated severe corrosion(Black II)

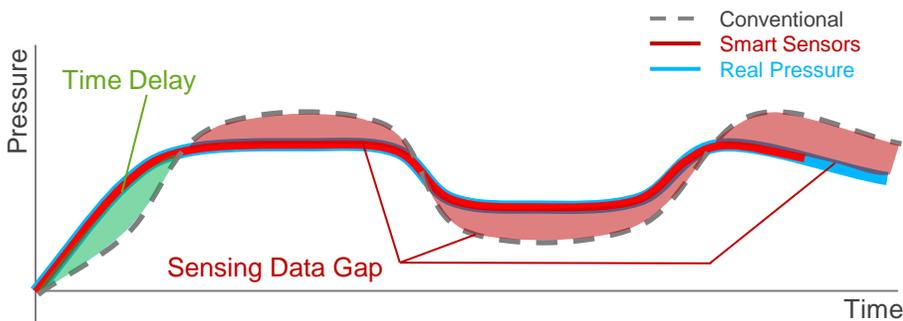

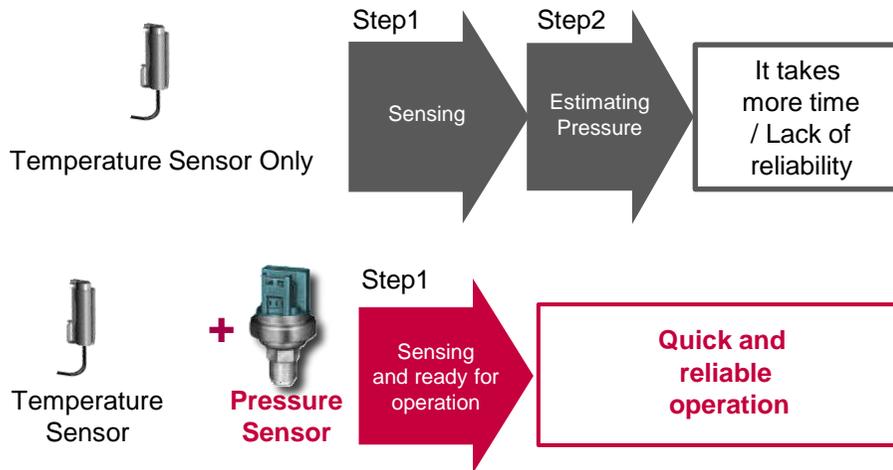

# Quick Cooling & Heating

High Operation Reliability

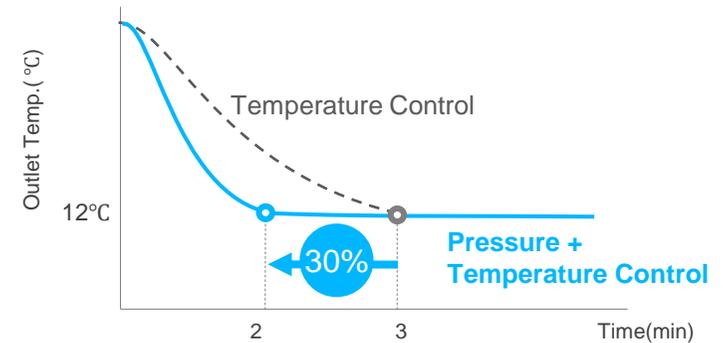

Through the pressure & temperature control, you can save the time to reach the desired temperature. You can experience the quick and reliable operation with the LG Multi Split.

- Quick response due to sensing with ready for operation.
- Ensures to reach target performance point without failing to keep a reliable operation.

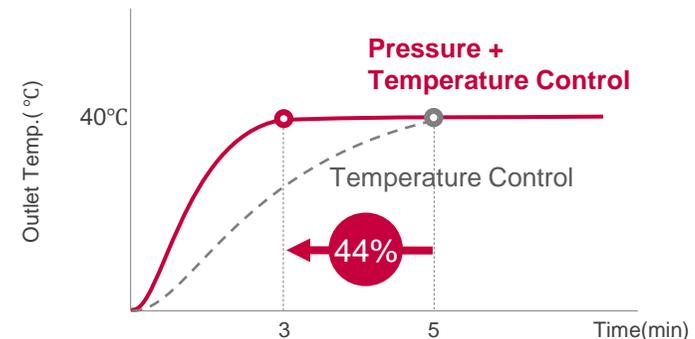

- Pressure control takes up to 30% and 44% less time to reach the desired temperature for cooling and heating, respectively, with high level of accuracy and stability.

## Cooling

## Heating

※Based on internal test data

Parts of Inverter Twin Rotary Compressor have been improved to assure a longer life span.

## Twin Rotary Inverter Compressor

### • Flow Optimization

Reduced oil inflow by increasing the length of oil discharge pipe, which keeps enough oil inside the compressor to prevent compressor abrasion.

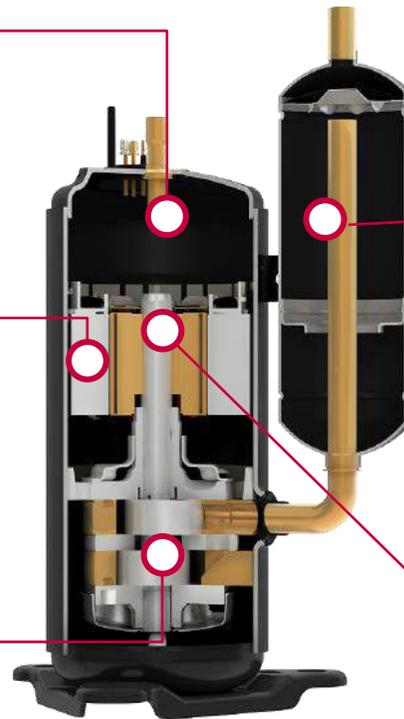

### • Concentrated Winding Motor

Oil path area is improved by over 50% by increasing the extra stator cavity. Due to this, caloric value of motor is reduced, improving the cooling function of stator coil.

### • Twin Rotary Rotor

Upper and lower part rotor offset imbalance in shaft rotor rotation. Vibration and noise are reduced. Max torque load decreased by 45% compared to single rotor.

### • Suction Optimization

Reduced suction loss and improving oil collection through the optimization of suction path.

### • Surface Coating

Surface coating of outstanding abrasion resistance property on vane and crank shaft.

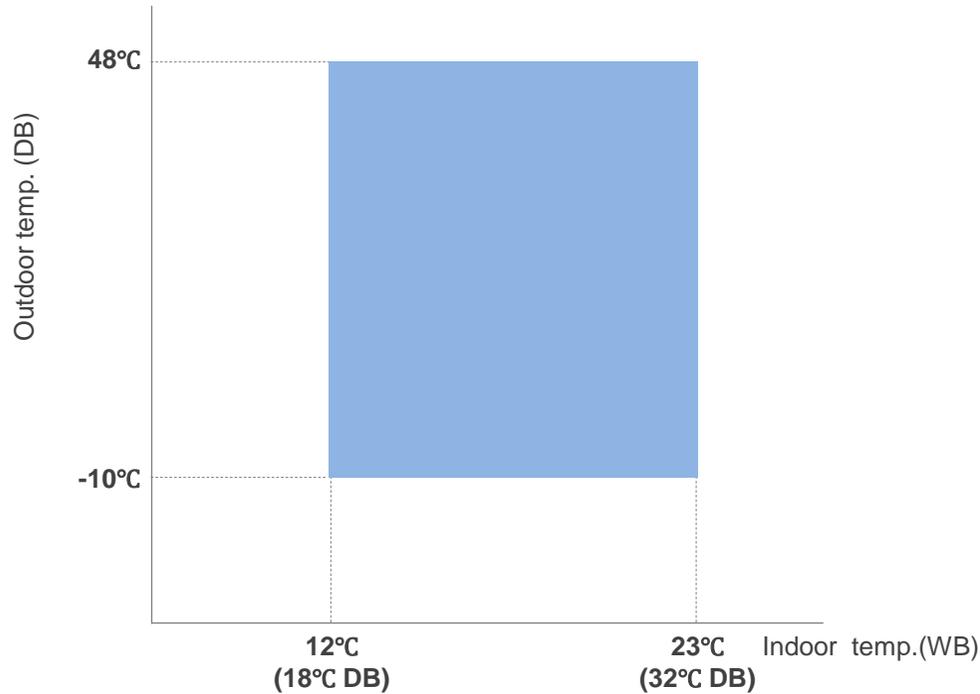

# Wide Operation Range

High Operation Reliability

Thanks to the wide operation range, models using R32 refrigerant are suitable for cooling in winter season.

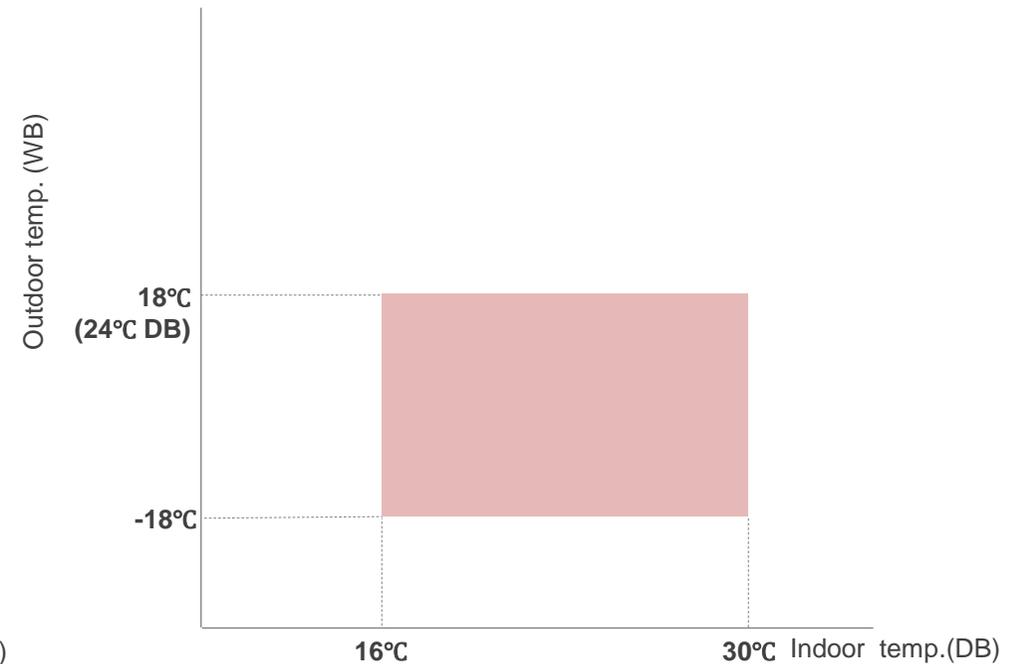

## Cooling Mode

- Cooling operation area

## Heating Mode

- Heating operation area

# Comfort & Convenience

---

- Biomimetic Fan
- Night Silent Operation
- LG ThinQ
- Scheduled Operation
- Easy Troubleshooting
- Pump Down
- Wiring Error Check
- Mobile LGMV

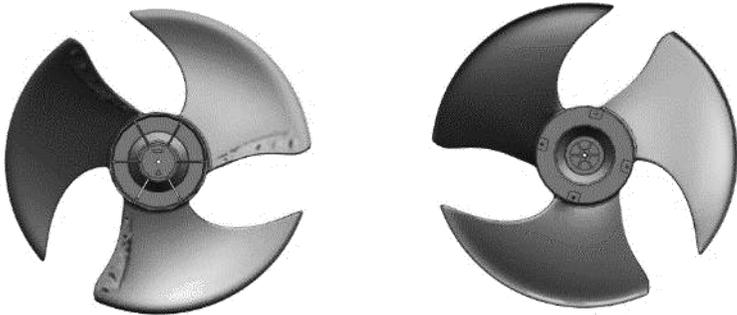

# Biomimetic Fan

Comfort & Convenience

The biomimetic fan design was able to achieve lower noise under the same conditions.

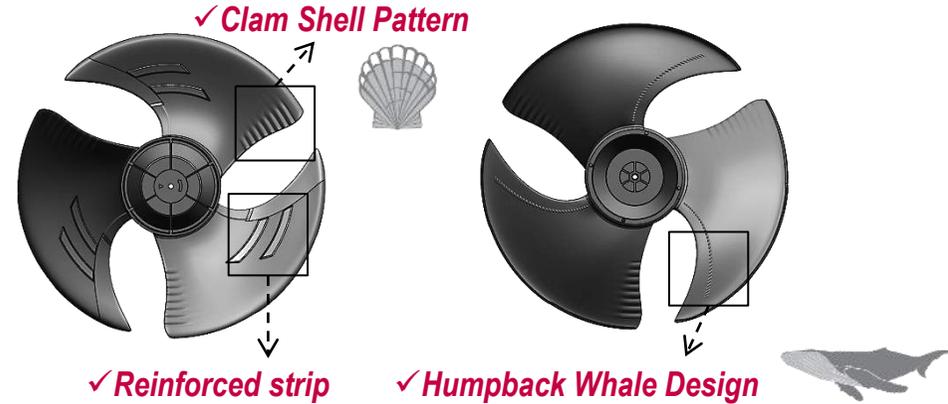

## Previous Fan

- **General** fan design
- Sound pressure level **53.1 dB(A)** (110CMM / 2 fan/ fan noise only)

## New Design Fan

- **Biomimetic** fan design
- Sound pressure level **49.6 dB(A)** (110CMM / 2 fan/ fan noise only)

Sound pressure levels (cooling)

R410A	dB[A]	-		53	51	53	53

※ Applied to MU4R27 U40, MU5R30 U40, MU5M40 U44, FM40AH U34, FM48AH U34, FM56AH U34, FM41AH U34, FM49AH U34, FM57AH U34

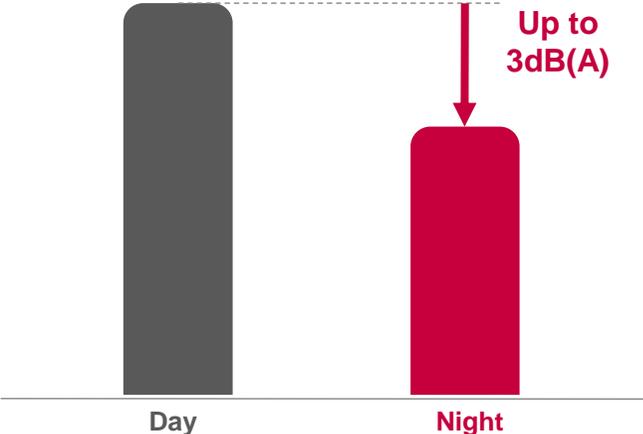

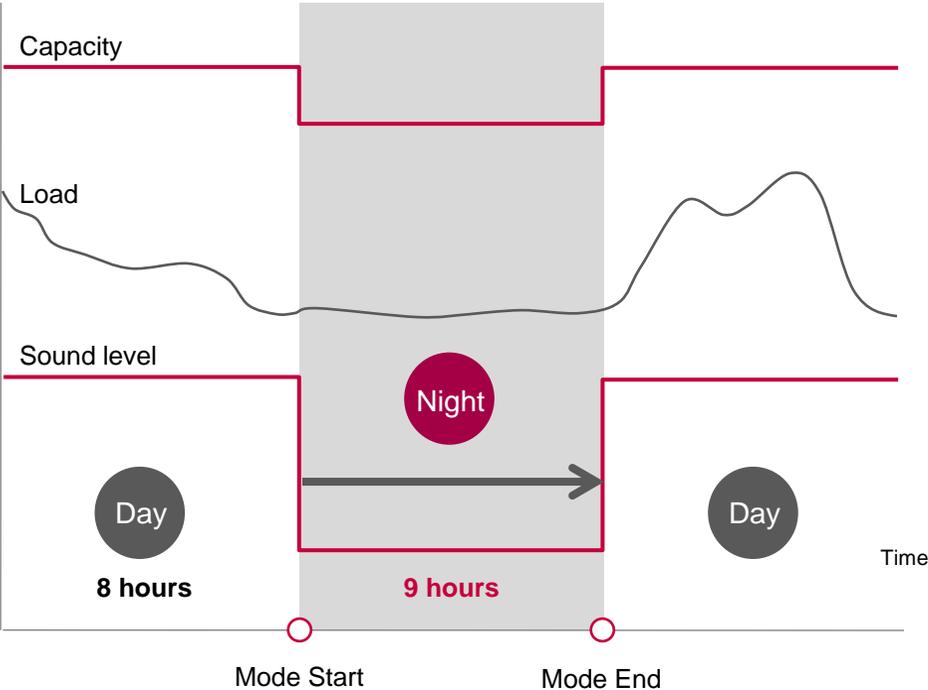

# Night Silent Operation

Comfort & Convenience

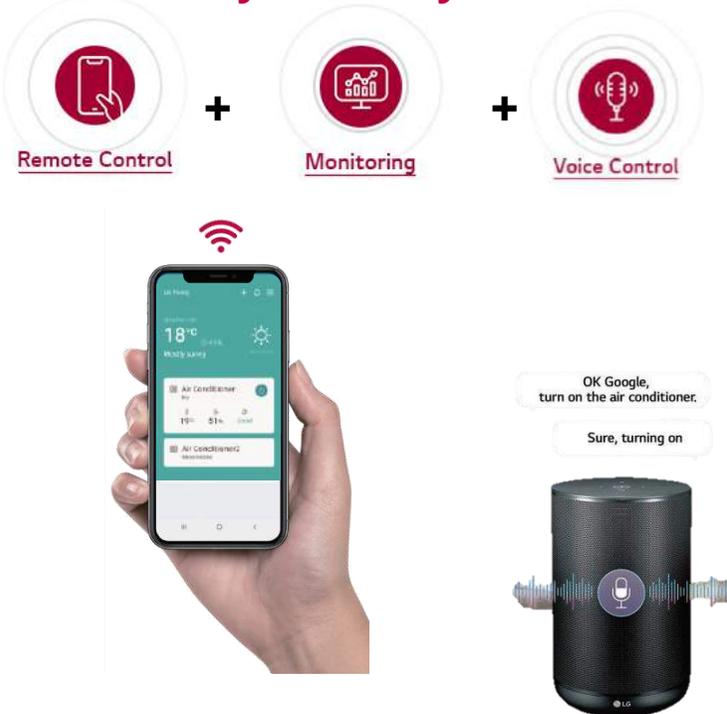

Night Silent operating can reduce noise levels at night time by simply setting the dip switch on the PCB of the outdoor unit.

## Cooling Mode

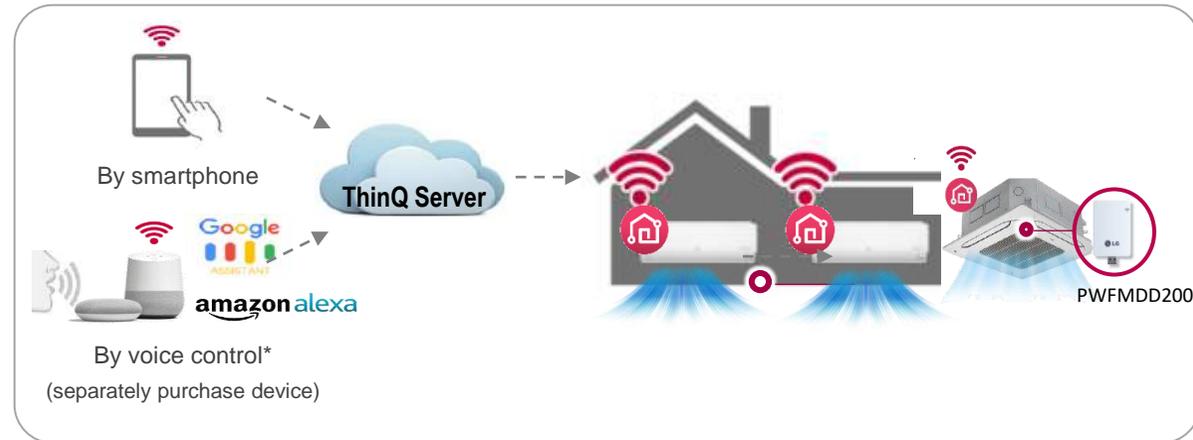

Control your air conditioners using the smart devices as Android or iOS based smartphones via Wi-Fi.

### Enhance your daily life!

### Access your air conditioner anytime and from anywhere

\* Device availability in your country can be checked at

Google : <https://support.google.com/store/answer/2462844?hl=en>

Amazon : <https://developer.amazon.com/en-US/docs/alexa/device-apis/list-of-interfaces.html>

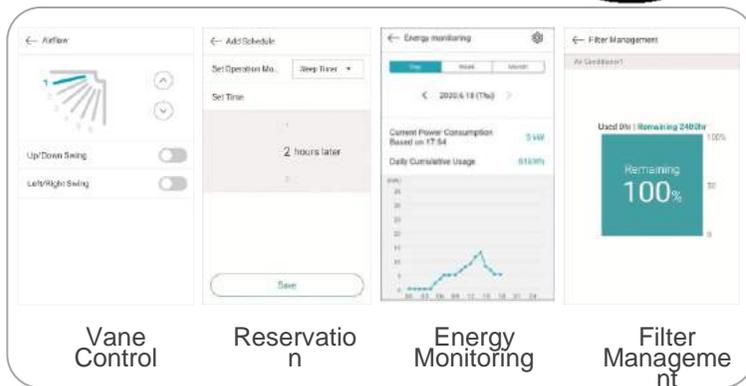

### Simple operation for various functions

- On/Off
- Mode Selection
- Current temperature
- Set temperature
- Vane Control
- Reservation
- Energy Monitoring
- Filter Management
- Smart Diagnosis

※ Search “LG ThinQ” on Play store or Appstore then download the app.

※ Functionality may be different according to each IDU model.

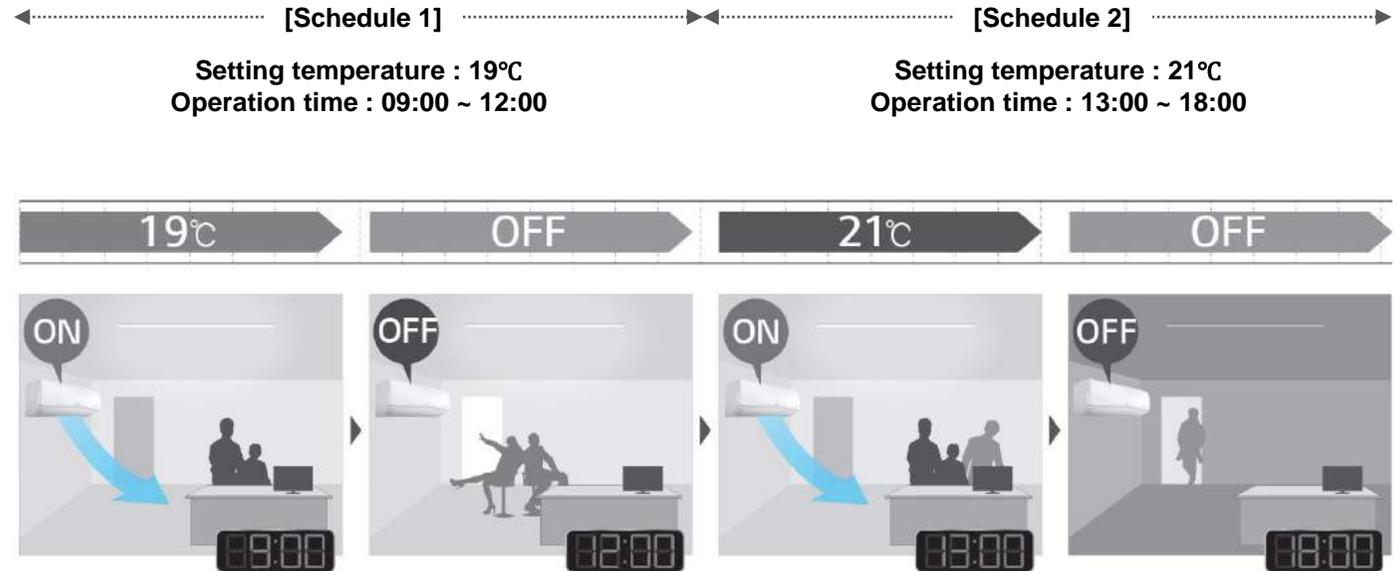

※ Embedded : Wall Mounted Unit(SJ, SK Chassis / Grade : Standard Plus ↑)  
Option : Ceiling Mounted Cassette, Ceiling Concealed Duct

# Scheduled Operation

Comfort & Convenience

You can set up to 30 schedules for one day or a week.

※ : These functions need to connect to the wired remote controller.

Premium

- Daily 5 schedules
- Up to 35 schedules for a week

Standard III

※ Click for more details

- Up to 30 schedules for one day or a week

Standard II

- Daily 2 schedules
- Up to 14 schedules for a week

# Easy Troubleshooting

Comfort & Convenience

The operation status is recorded until a malfunction occurs.

Service engineer can analyze the malfunction cause more easily during maintenance.

## Conventional

Service engineer has to look for many causes of failure one by one.

Too much effort is required to diagnose the source of trouble

## Multi Split (LG Only)

*Service engineer can diagnose malfunction causes using recorded data.*

Save time & improve accuracy of malfunction diagnosis

The operation status has been recorded up to 3minutes before failure.

Service engineer can check recorded data through smartphone when Wi-Fi module is installed in outdoor unit.

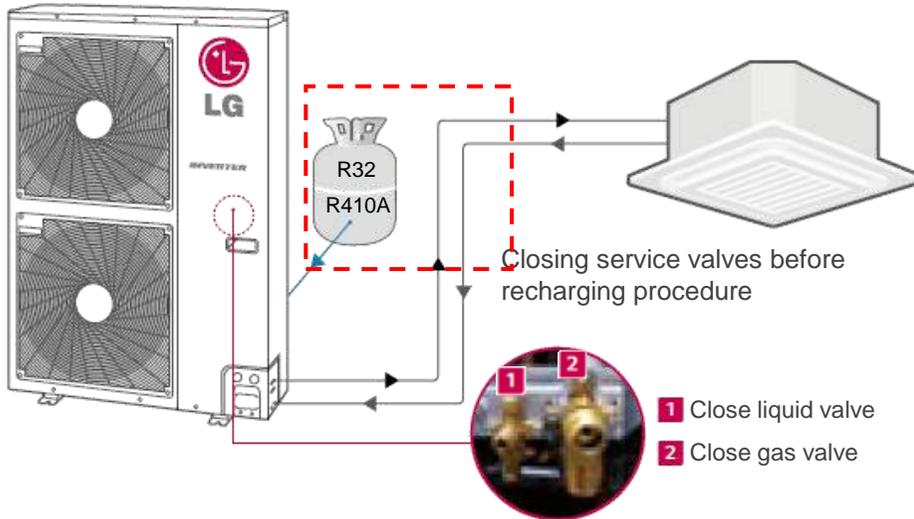

# Pump Down

Comfort & Convenience

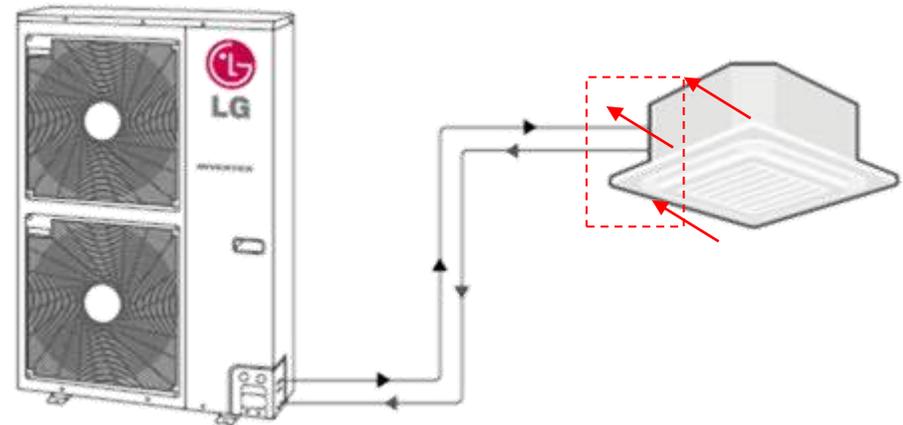

The Pump down(Forced cooling operation) allows refrigerant to be recharged or pumped down regardless of the indoor and outdoor temperature.

This function is very useful when indoor units are being relocated or repaired during winter.

## Recharging

## Pump Down

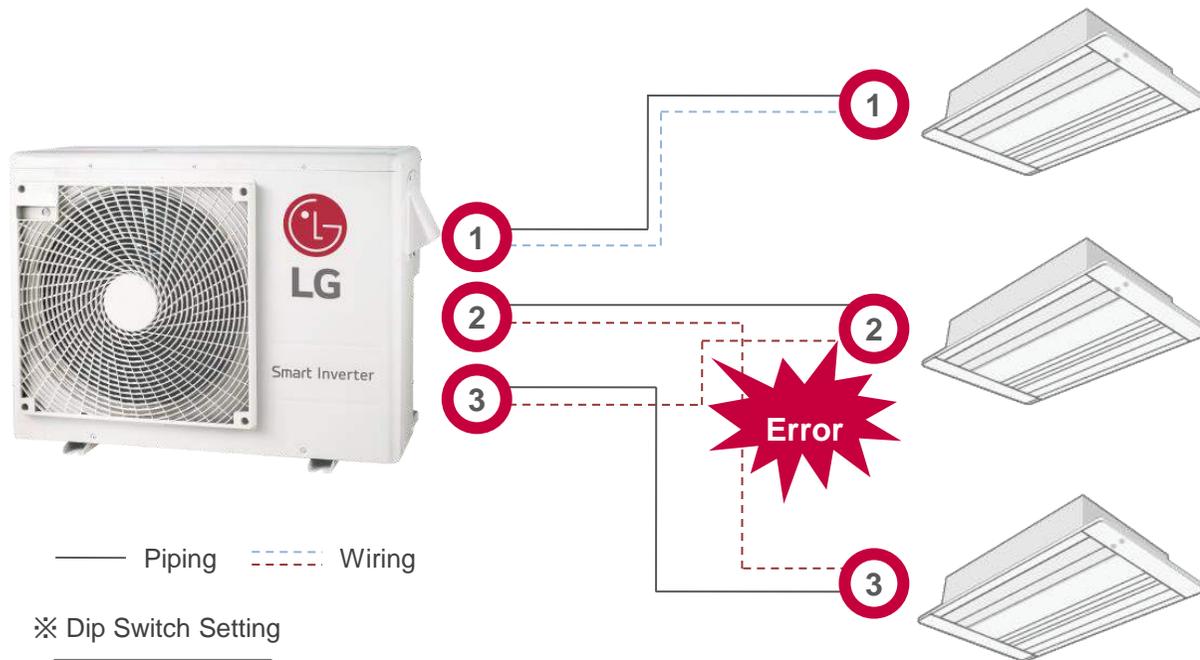

**Possible to pump down refrigerant forcibly during winter when indoor or outdoor condition may not meet operation range.**

# Wiring Error Check

Comfort & Convenience

During trouble shooting after installation, installers can check whether the transmission cable has been connected correctly by using the wiring error check function. It can be shown at outdoor PCB.

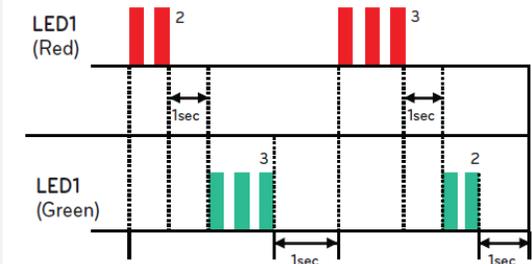

This wiring error check function can reduce the time taken to check for transmission cable errors.

## [LED Result]

- If the wiring is correct, the Green LED will light up.
- If the wiring is wrong, display is as below.
  - Red LED : Piping Number
  - Green LED : Wiring Number (Room)

Ex)  
If the Red LED blinks twice and the Green LED blinks 3 times, 2<sup>nd</sup> wire is connected to the 3<sup>rd</sup> indoor unit.

# Mobile LGMV (Monitoring View)

Comfort & Convenience

Monitor the status of your air conditioner and diagnose problems by connecting it to a smartphone.

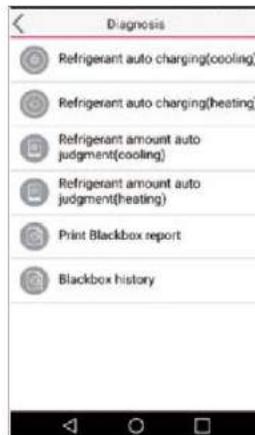

## Error Indicator

Error Code	Contents
01	Air temperature sensor of indoor unit
02	Inlet pipe temperature sensor of indoor unit
03	Communication error : Wired Remote Controller ↔ Indoor Unit
	⋮

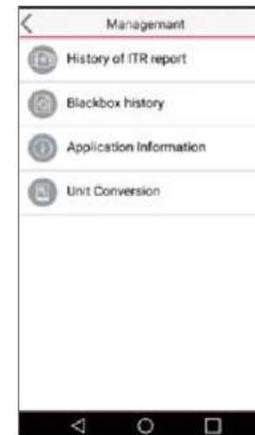

Cycle Monitoring

Diagnosis

Installation

Smart Management

A technician not only can check the **cycle information** with diagrams & graph, but also can check easily the **error status** (troubleshooting guide) and take action immediately.

※ Search "Mobile LGMV" on Google market or App store then download the app.  
 ※ Wi-Fi modem (PWFMD200) is required by option.

- **UV** nano™ • DUALCOOL with AirCare Complete System
- DUALCOOL with Air Purification
- Fast Cooling & Heating
- Comfort Air
- Quick & Easy Installation

**Bacteria, Smog, Pollen and Micro  
Dust ..**

**And then,  
are we safe at home?**

LG provides fresh & clean air by the 4 steps of total care system.  
The Only total air care system with UVnano.

**LG Only & Best**

AirCare Complete System™

Filtering System + UVnano

STEP 1 Pre-Filter

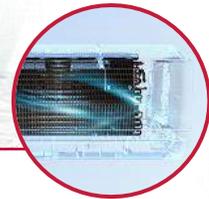

STEP 2 Auto Cleaning

STEP 3 UVnano™

STEP 4 Plasmaster Ionizer Plus

Click for more details of each step

Step 1. **Safe Plus Pre-Filter**  
Traps big dust particles and remove 99.9% bacteria

Step 2. **Auto Cleaning**  
Prevents Bacteria & Mold  
Dry the moisture inside the indoor unit to keep it clean

Step 3. **UVnano**  
Sterilizes the Fan up to 99.99% of bacteria (Including 0.1~0.3 μm in Size)

Step 4. **Plasmaster Ionizer+**  
Removes more than 99.9% of bacteria (Included 0.1~0.3 μm in Size)

\*Image of Deluxe model

**Safe at home!**  
**Without any fear or anxiety**

※ Applied to model of Deluxe(DM\*\*RH) & ARTCOOL Mirror(AM\*\*BH)

# DUALCOOL™ with Air Purification

Wall Mounted Unit

An air conditioner and an air purifier in one. PM1.0 sensor is automatically activated and filtration system uses over 3 million ions to capture and remove microscopic dust particles.

## Perfect Air Purifier with 4 stages

Cooling + Heating + Air purification

Comfort 365 days

Removes Ultrafine dust

Ion Diffuser & Micro Dust filtering system

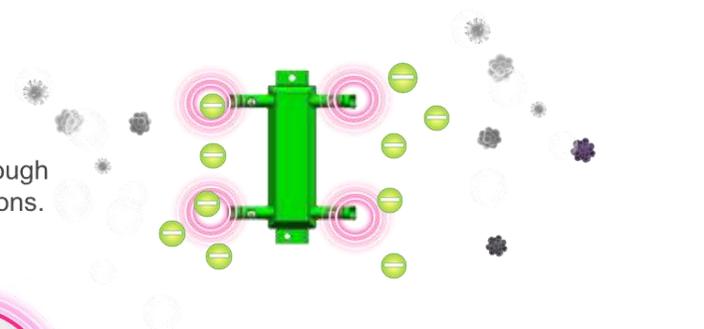

Real-time control & monitoring

LG ThinQ APP

### Step 2. Ion Diffuser

Ion diffuser from 4 electrode (Inside). Ionizer reduces harmful microscopic particles by infusing the air passing through the air conditioner with over 3 millions ions.

### Step 3. 0.3µm Micro Dust

Effective particle capture.  
(Dust Filter / Micro Dust Filter)

### Step 1. PM1.0 Dust

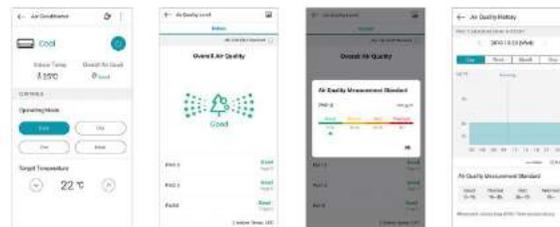

LG Dust Sensor can detect dust sizes of 0.7 micrometers. The sensor can measure the dust concentrations of PM 1.0, PM 2.5 and PM 10.

### Step4. Display

Display 4 or 6 different LED colors according to air quality status.

Conveniently manage air quality with the LG ThinQ app

※ Applied to model of Air Purification(AP\*\*RT)

# Fast Cooling (Jet Cool)

※ Specifications may vary for each model.

Wall Mounted Unit

LG air conditioners provide optimized high-speed airflow, which cools the room faster while delivering cool air evenly in every direction.

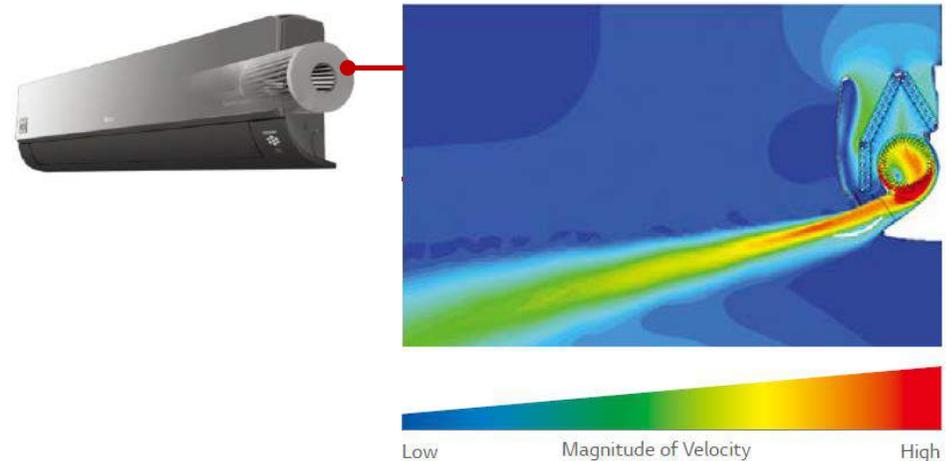

## • One Click “Jet Mode”

Reduces the temperature of outflowing air to 18°C for 30 minutes with just one click.

## • More Powerful Performance

By reducing the second vortex, which decreases airflow within the air outlet, and enlarging the fan size, the amount of airflow is increased to 13.0 CMM.

- PC24SQ model
- Cooling  
Fan speed : 0.3m/s / Discharge angle: 25°,  
Cooling range :15.0m
- Heating  
Fan speed : 0.3m/s / Discharge angle: 45°,  
Heating range : 19.5m

# Fast Cooling (4 Way Swing)

※ Specifications may vary for each model.

Wall Mounted Unit

Cool air reaches out to all directions and each corner of the room regardless of where the air conditioner is installed.

## 6-Step Vane, control up to 70°

The vertical vane, which moves up and down, has 6 different settings including full-auto swing.

## 5-Step Louver, Control up to 55°

The louver, which moves left and right, has 5 different settings including full-auto swing.

※ Angle can be different from each model and working mode.

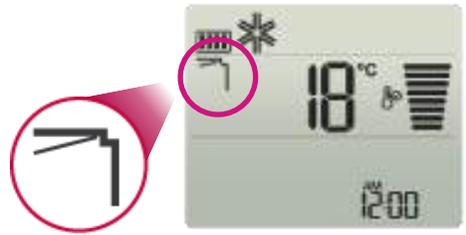

LG Air Conditioner provides comfortable air to your living space.

### • Comfort Vane

This option conveniently sets louvers to a preset position so that outflowing air is directed away from a room's occupants.

#### Scene 1: Inclines to a maximum 70° angle

#### Scene 2: Declines to a maximum 0° angle.

- Sets vane angle to highest position.
- Optimized for gentle airflow cooling.

• Remote Controller Display

- Sets vane angle to lowest position.
- Optimized for gentle airflow heating.

• Remote Controller Display

# Quick & Easy Installation

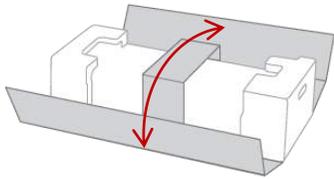

※ Specifications may vary for each model.

Wall Mounted Unit

It is possible to install in a shorter period of time.

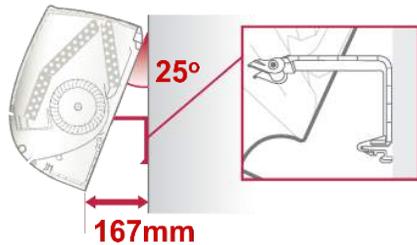

## • One Simple Packaging

Open the packaging with just one touch.

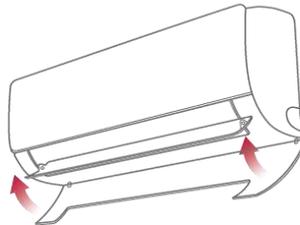

## • Installation Support Clip

Adequate space between the wall and the unit for easier installation.

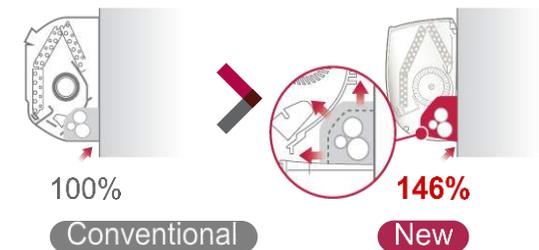

## • Detachable Bottom Cover

Detachable for easier installation and access.

## • Wider Tubing Space

Wider space for hiding the unorganized tubing parts, making it appear clean and tidy.

# Air Purification with CST

Ceiling Mounted Cassette

Creates a healthy living environment in all seasons along with air-conditioning.

[Verification for Ultrafine dust removal]  
[Verification for Culturable bacteria and virus removal]

[1 Way CST]		[4 Way CST]	

[1 Way CST]

- Virus (Bacteriophage Phi-X174): 95.3% removed within 30 minutes
- Bacteria (Staphylococcus): 91.2% removed within 60 minutes
- Ultrafine dust removal (50 nm, 100 nm): 99.9% removed

[4 Way CST]

- Virus (Bacteriophage Phi-X174): 99.9% removed within 30 minutes
- Bacteria (Staphylococcus): 99.9% removed within 60 minutes
- Ultrafine dust removal (50 nm, 100 nm): 99.9% removed

※ Air purification kit optional.

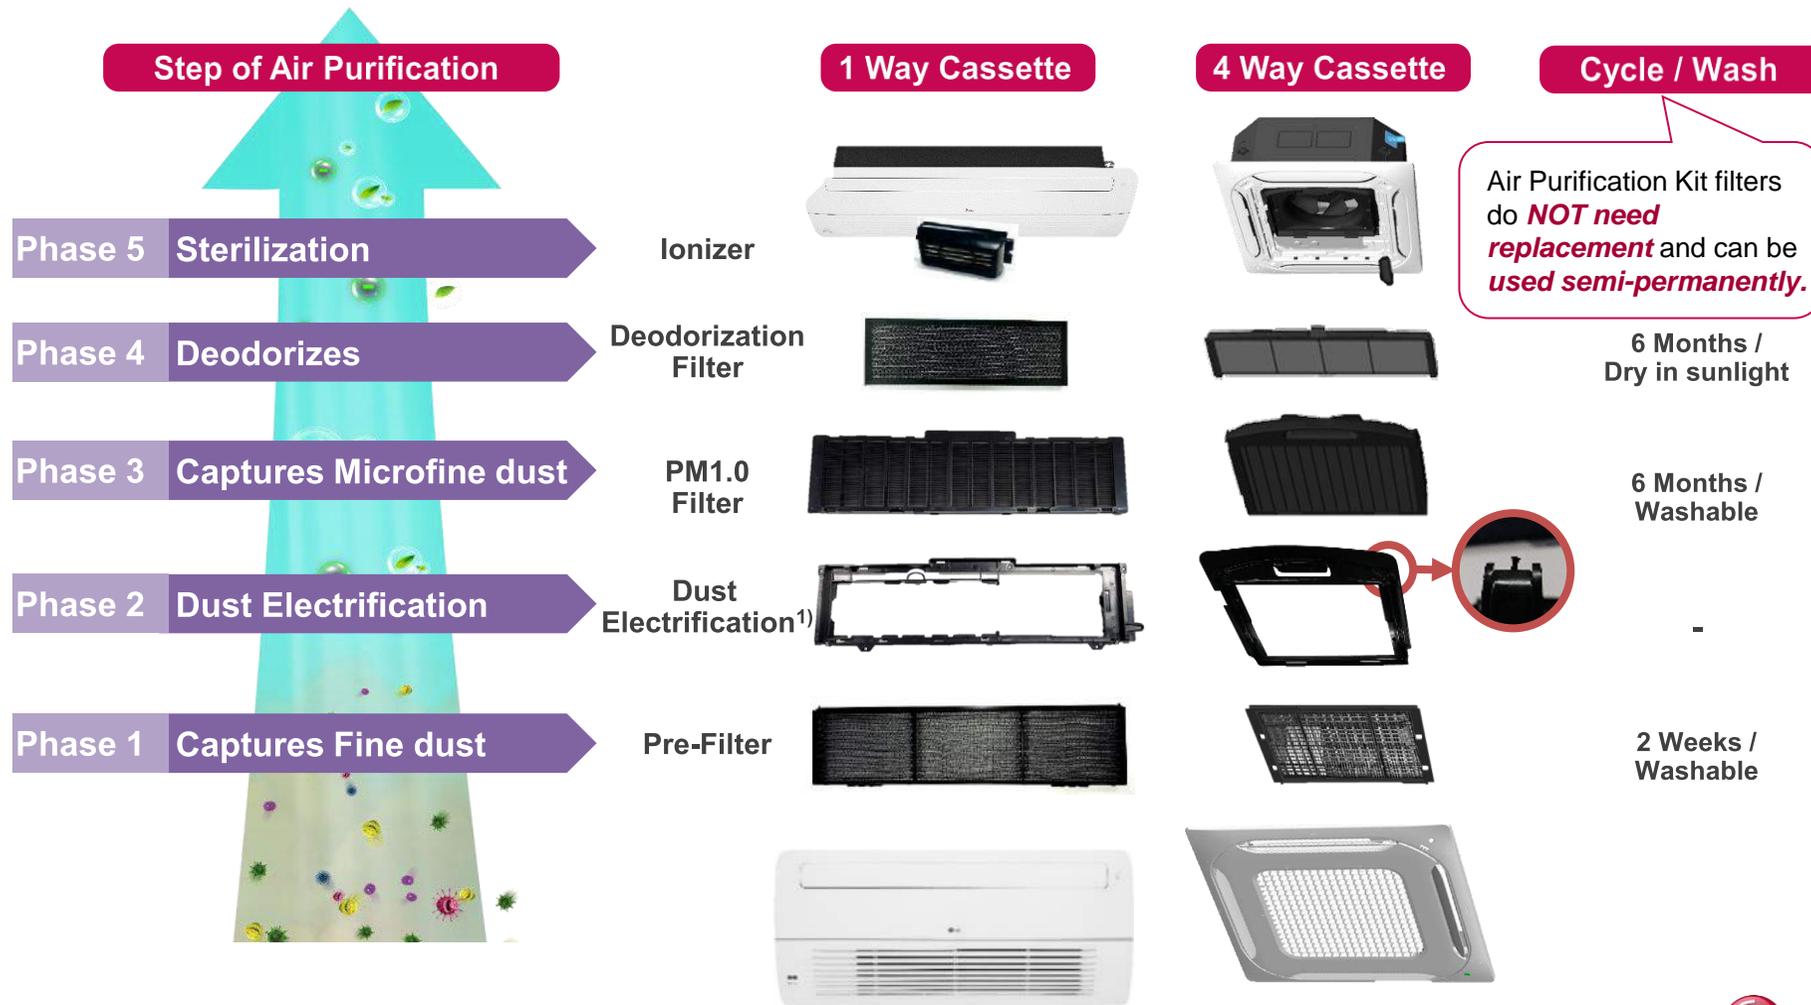

# Steps of Air Purification with CST

Ceiling Mounted Cassette

5 Steps air cleaning process removes invisible ultra fine dust, odor and germs to ensure a clean and healthy living environment.

※ Technology details

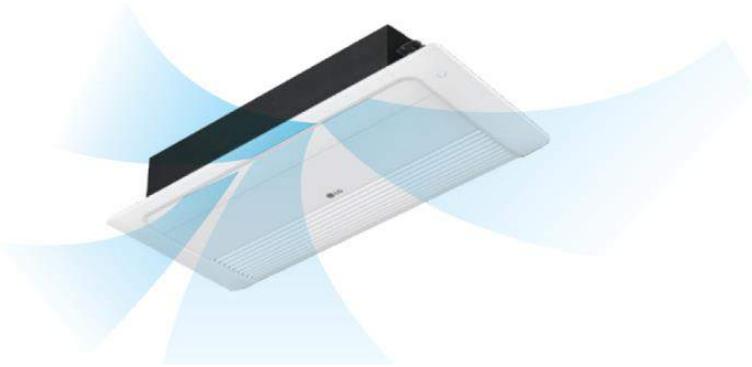

1) It increases the electrostatic force of particle to improve collection efficiency.

※ Normally HEPA filter type must be replaced regularly. It means that it costs expensive for maintenance.

Two vane angles can be controlled in 6 steps from 20° to 70°, depending on the indoor environment and personal preference.

### • 4 Way Discharge

No cooling blind spot

### Automatic 4-way wind direction

The wind is discharged evenly up, down, left, and right automatically, so there is no cooling blind spot.

### • Auto Swing(left and right)

### • 6 Different steps

# Direct & Indirect Wind

Ceiling Mounted Cassette

## 1 Way Cassette

# Compact Size

Slim & compact design not only saves space, but also reduces installation costs.

The height of 1 Way Cassette is 132mm, making it the ideal solution for ***installation in limited space.***

Cooling Capacity (kW)	Chassis	Body		Panel (W×H×D, mm)	
		(W×H×D, mm)	Weight(kg)	Glossy	Non-glossy
2.0 ~ 4.0	TU	860× <b>132</b> ×450	11.7	1,160×34×500	1,100×34×500

# Filter Maintenance & Sign

1 Way Cassette notifies the user of the time of cleaning not only by the remote controller or mobile application, but also by the LED display on the cassette. It makes the filter management easy and the indoor environment can be kept clean.

## Filter Sign

Wired Remote Controller

## Ceiling Concealed Duct

---

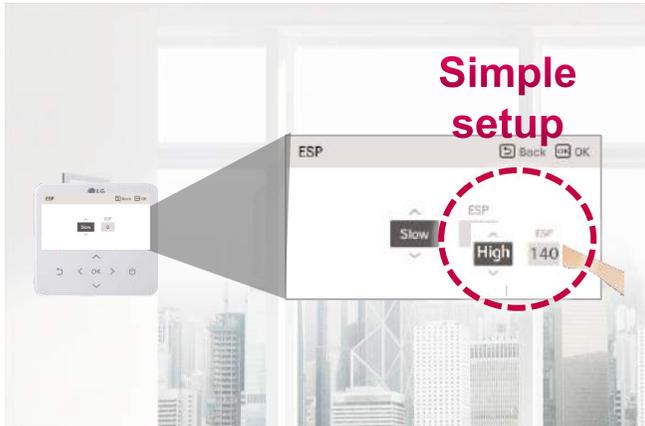

- E.S.P. (External Static Pressure) Control
- Minimized Size
- Light Weight
- High Head Drain Pump
- Two Thermistors Control
- Low Noise

# E.S.P. (External Static Pressure) Control

Ceiling Concealed Duct

E.S.P. control function enables control of air volume easily with a remote controller. The BLDC motor can control fan speed and air volume regardless of the external static pressure.

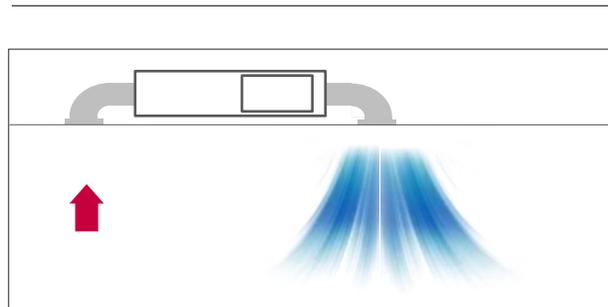

Set RPM by simple touch on remote control to change airflow

※ ESP Setting guide (Wired Remote Controller) :

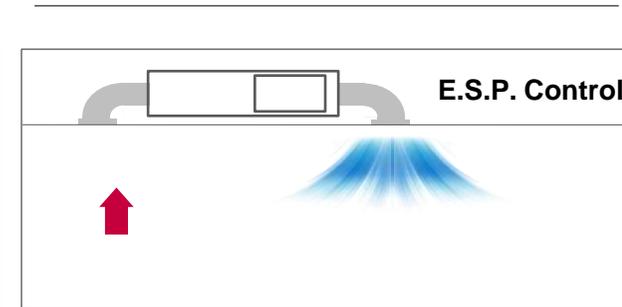

- Standard III (PREMTB100/B10) : Menu → Setting → Installer → ESP setting
- Standard II (PREMTB001/B01) :  Button click → 03 : XX → ESP setting

Conventional

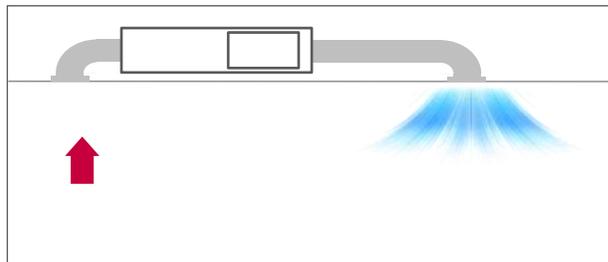

Over Cooling / Heating

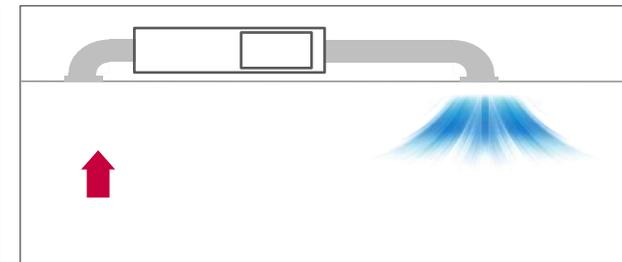

**MULTI**SPLIT

Comfort Cooling / Heating

Weak Cooling / Heating

Comfort Cooling / Heating

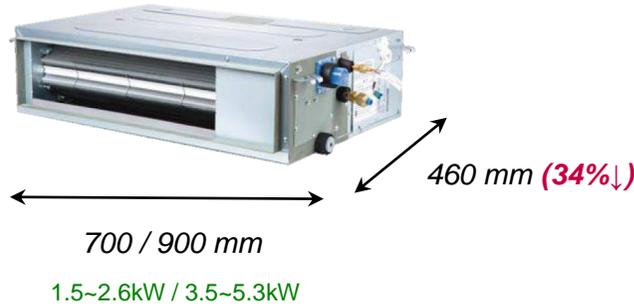

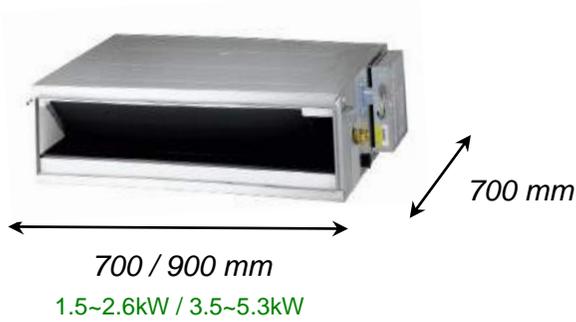

※ Wired remote controller is necessary.

# Minimized Size

The Low-static ducts provide ideal solution for installation in limited space.

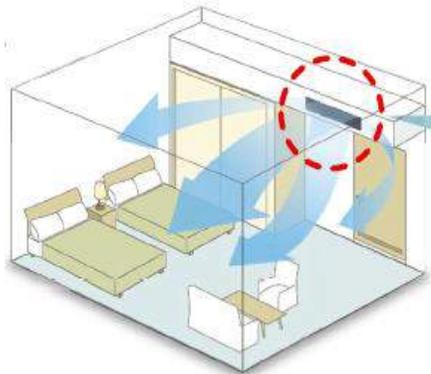

Previous

New

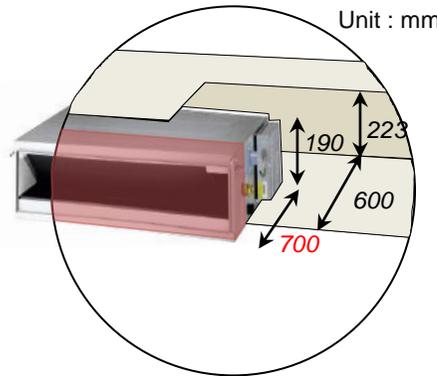

## Installation site

The new model can fit in limited installation space.  
Also, it can reduce the required ceiling space when installed in an apartment or villa.

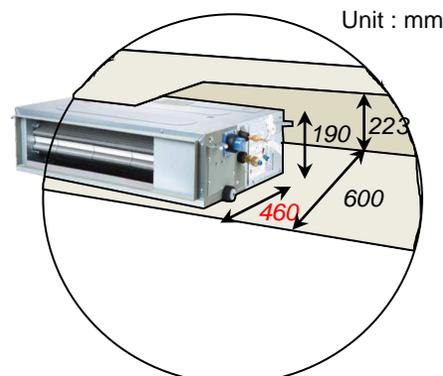

Previous

New

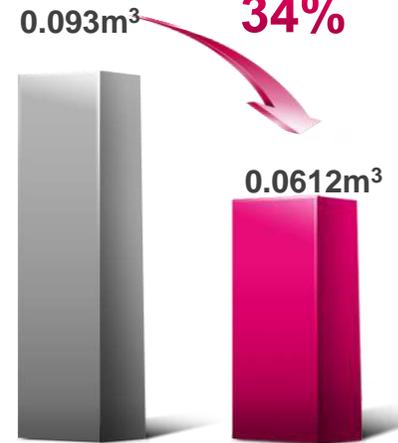

Cannot be installed

Can be installed

Volume

Previous

New

All models are reduced volume.

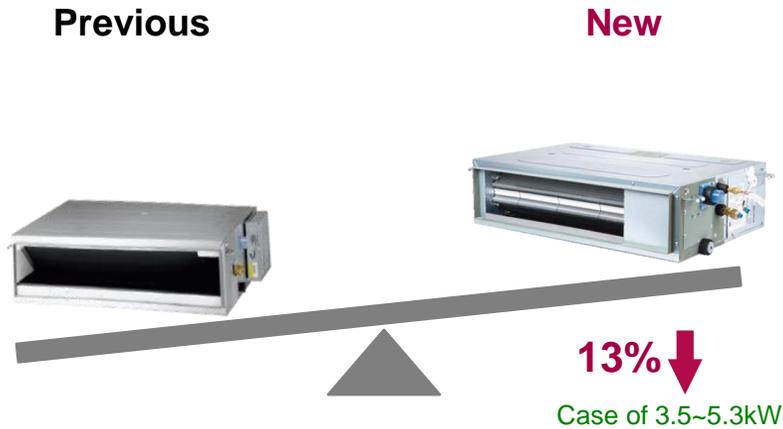

\* 5.0 ~ 9 kW model

\* Applied except for model CL24F

Light weight of the new low-static model makes it easy to carry. It saves labor cost for installation and maintenance.

### Light Weight

New model duct is lighter than conventional product.

		Unit : kg	
Capacity(kW)	1.5~2.6kW	3.5~5.3kW	
Weight	Previous	17.5	23
	New	<b>14.6</b>	<b>20</b>

### Cost saving for installation & maintenance

		Unit : kg			
age	18↓	19~35	36~50	51↑	
recommended lift weight	12	<b>15</b>	13	10	

※ Source : Special action for lifting weights.  
(2015, from Korea Occupational Safety and Health Agency)

# High Head Drain Pump

High head drain pump automatically drains water up to 700mm of drain-head height. It provides a perfect solution for water drainage.

# Two Thermistors Control

The indoor temperature can be checked using the thermistors in the remote controller as well as from the indoor unit. Two thermistors check indoor air temperature and select the optimal temperature for a more comfortable environment.

Compares temperatures sensed from different positions, and automatically selects the optimum temperature for users

# Low Noise

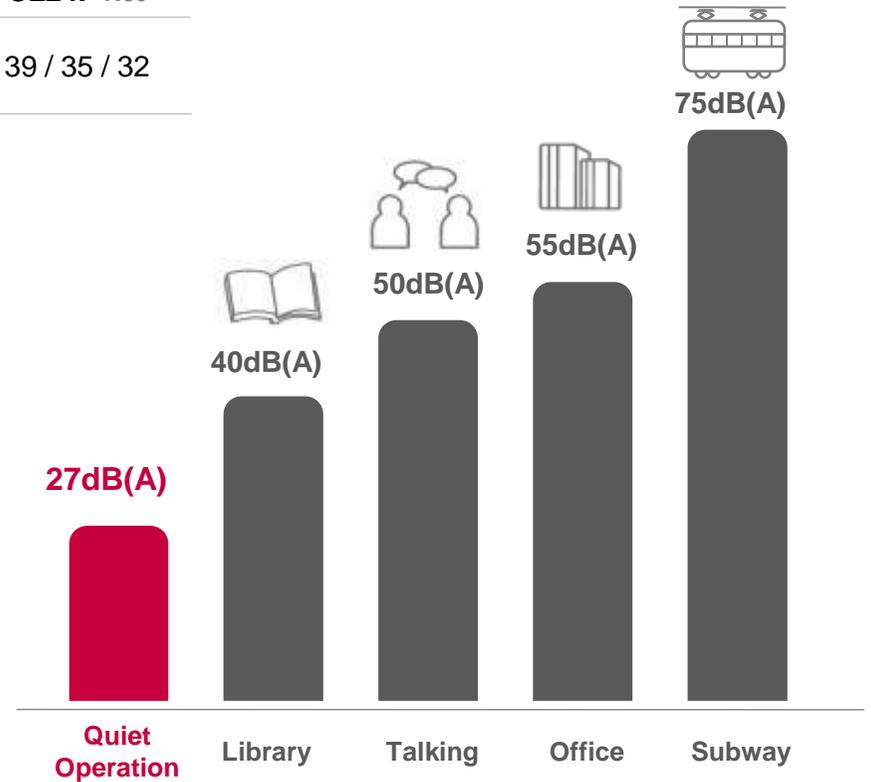

The noise level of low static ducts have been reduced, even though ESP has been increased.

Unit : dB(A)

<b>Low-static duct</b>	<b>CL09F N50</b>	<b>CL12F N50</b>	<b>CL18F N60</b>	<b>CL24F N30</b>
Sound Pressure (High / Medium / Low)	35 / 30 / 27	35 / 30 / 27	34 / 31 / 29	39 / 35 / 32

Unit : dB(A)

<b>Mid/High-static duct</b>	<b>CM18F N10</b>	<b>CM24F N10</b>
Sound Pressure (High / Medium / Low)	34 / 32 / 30	35 / 34 / 32

# App. Corrosion Resistance Black Fin

High Operation Reliability

Through the internal durability test at a corrosive environment, Black Fin's performance is proved that it is improved compared to the previous heat exchanger fin.

## SST (Salt Spray Test)

### Test Process

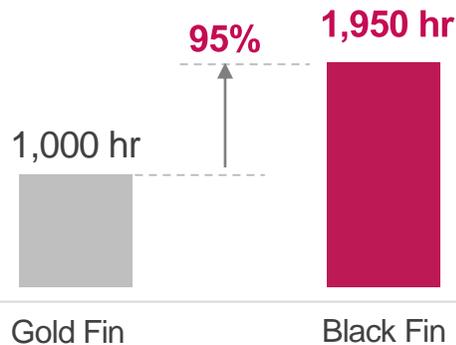

× Process repeated

Fog <sup>1)</sup> (35°C, 24hr)

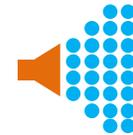

Test process is conducted according to ISO 9227.  
1) Salty water concentration : NaCl aqueous solution (5%)

### Test Result (5% Area of defects compared to initial)

## CCT (Cyclic Corrosion Test)

### Test Process

Fog <sup>1)</sup>  
(35°C, 2hr)

Dry  
(70°C, 2hr)

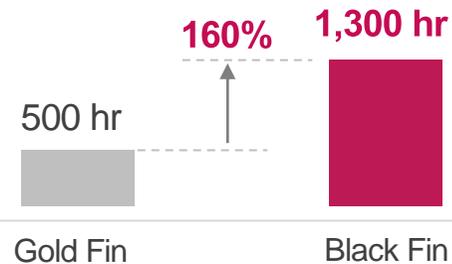

Wet <sup>2)</sup>  
(50°C, 2hr)

× Process repeated

Test process is conducted according to ISO 14933.  
1) Salty water concentration : NaCl aqueous solution (5%)  
※ Dry condition changed : 60°C, 4hr → 70°C, 2hr  
2) Deionized water

### Test Result (5% Area of defects compared to initial)

Traps big dust particles and remove 99.9% bacteria from the start.

## Why?

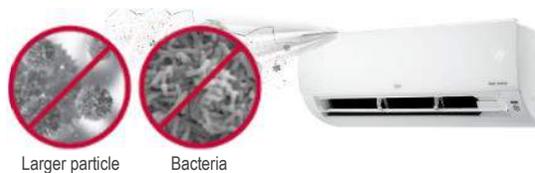

To traps big dust particles and remove 99.9% bacteria from the start.

## How?

**Safe Plus Pre-Filter** containing with Ant-Bacterial material ZnO (Zinc Oxide) traps larger dust particles and removes 99.9% of bacteria as the first line of defense from the start. In addition to, it's very convenient to detach and clean pre-filter, Now try to clean the air entering the air conditioner from the starting step.

**Anti-Bacterial Pre-Filter**  
from the starting

## Test Result

### Bacteria Removal Test

Traps big dust and removes **99.9%** of bacteria in 18 hours. ( S.aureus / K.pneumoniae / E.coli)

\*Test Condition Disclaimer

KOTITI and FITI Verification of the Antibacterial Activity

- Test Standard : Antibacteria Test ISO 20743:2013

- Bacteria(Stain Number)

Staphylococcus aureus (ATCC 6538)

Klebsiella pneumoniae (ATCC 4352)

Escherichia coli (ATCC 8739)

- Result : 99.9% antibacterial activity

### Test Verification Report

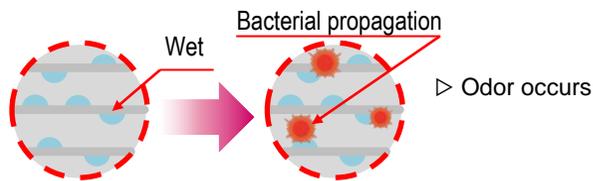

KOTITI and FITI Verification of the Antibacterial Activity

Prevents bacteria and mold buildup with drying out any moisture.

### Why?

It is wet inside of AC after air conditioners operation. The main cause of bad odor inside of AC is mold and bacteria growing on the heat exchanger. These germs can spread when the heat exchanger is wet.

Bacteria

Odor

Mold

### How it works?

1

After using the air conditioner,

2

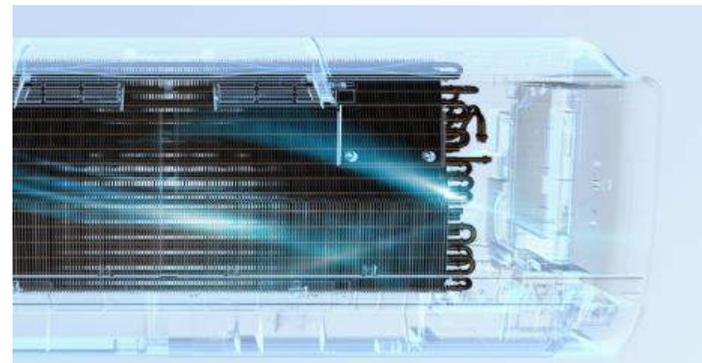

LG Auto Cleaning function automatically dries the heat exchanger

3

And prevents formation of bacteria and mold on the heat exchanger.

**LG Auto Cleaning function** automatically dries the heat exchanger and prevents formation of bacteria and mold that can grow with moisture and cause odor, keeping the unit clean even from the inside

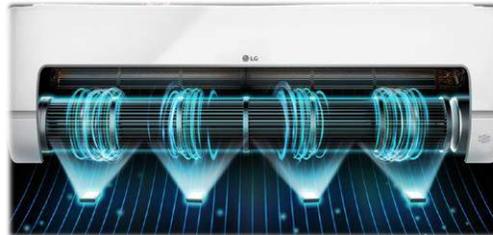

Keeps your fan 99.99% bacteria-clean for a cleaner breeze.

## Why?

Clean air will come out if the inside of air conditioner, especially fan is not cleaned well.

New UV LED technology is applied to LG DUALCOOL, So it keeps your fan 99.99% bacteria removal with ultraviolet light to ensure that the air passing through is clean too.

## Test Result

Bacteria Removal Test

Remove up to **99.99%** of bacteria from the fan.

## How it works?

Ultraviolet rays of UVC wavelength directly damage the DNA of microorganisms (bacterial/MOLD/virus), making it impossible to multiply

DNA absorption efficiency by wavelength

Destruction Nuclear Sequence (Chain)

\* **UVnano** is an integrated marketing name that applies LG Electronics' entire home appliances, ie Refrigerator, Washing Machine, Air Conditioners .

## LG UVnano Product

Humidifier

Stand AC

Water Purifier

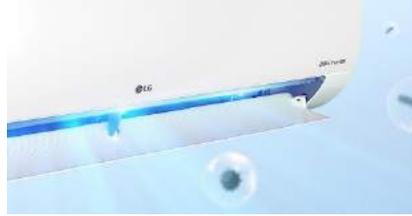

Refrigerator

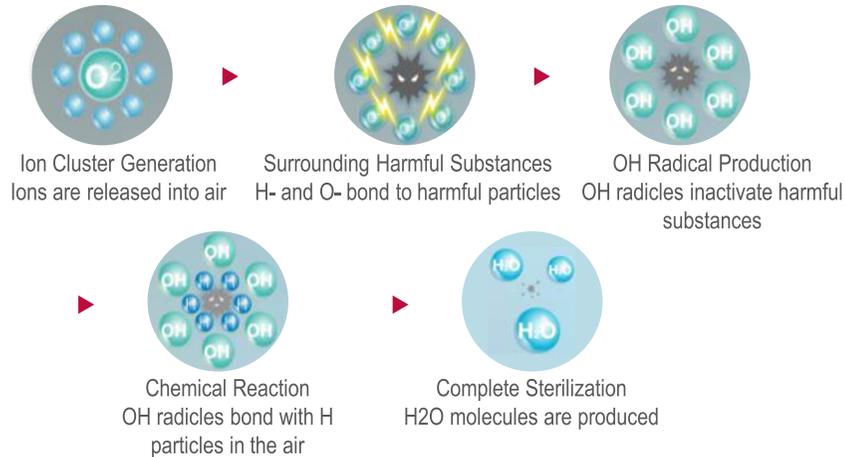

Eliminates 99% adhering harmful bacteria & Deodorizes

### Why?

Homes often contain countless harmful microscopic adhering particles that can adversely affect your health.

### How it works?

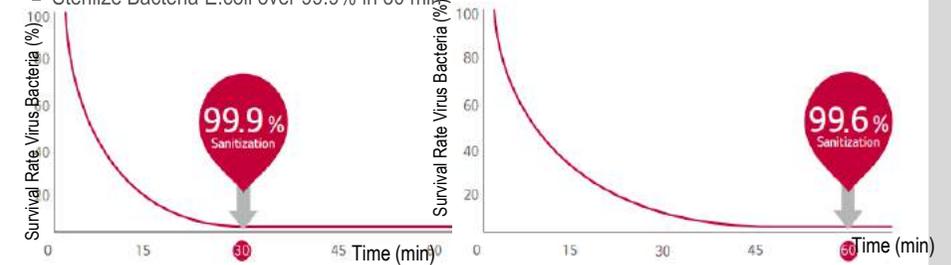

**Plasmaster Ionizer<sup>+</sup> reduces** harmful microscopic particles attached to furniture or clothes by infusing the air with over 3 million ion particles. The Ionizer has been proven to sterilize over 99% of bacteria within 60 minutes.

### Test Result

#### 1. Sterilization Performance Evaluations

- Sterilize Bacteria E.coli over 99.9% in 30 min

※ Test Conditions : Space : 52m3 Chamber  
(measuring with the specimen in the center of test chamber)  
Temperature & Humidity : Normal  
Bacteria : E coil colon bacillus  
Tested by Intertek

※ Test Conditions : Space : 52m3 Chamber  
(Measuring with the specimen in the center of test chamber)  
Temperature & Humidity : Normal  
Bacteria : Staphylococcus Aureus  
Tested by Intertek

#### 2. Odor strength decrease in 60 minutes

An odor of strength 2 or less indicates that there is odor but no sense of displeasure (degree of odor permissible).

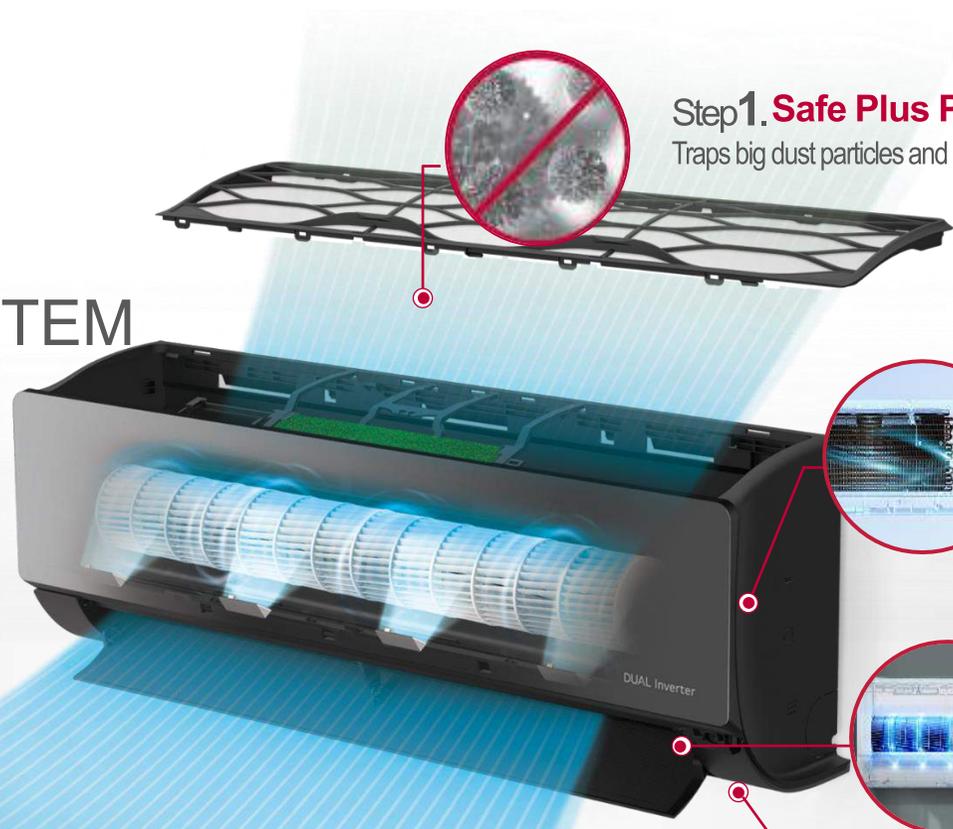

Odor Strength	1	2	3	4
Offensive odor substance sensitivity				
Odor strength level	Light	Moderate	Strong	Very Strong

### Test Verification Report

# DUALCOOL™ COMPLETE AIR PURIFICATION SYSTEM

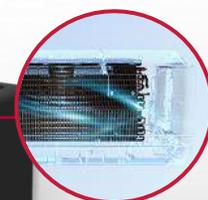

### Step 1. **Safe Plus Pre-Filter**

Traps big dust particles and remove 99.9% bacteria

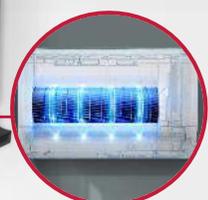

### Step 2. **Auto Cleaning**

Prevents Bacteria & Mold  
Dry the moisture inside the indoor unit to keep it clean

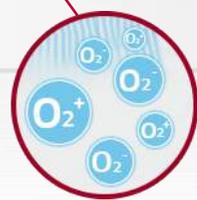

### Step 3. **UVnano**

Sterilizes the Fan up to 99.99% of bacteria (Including 0.1~0.3 μm in Size)

### Step 4. **Plasmaster Ionizer+**

Removes more than 99.9% of bacteria (Included 0.1~0.3 μm in Size)

STEP 1 Pre-Filter

STEP 2 Auto Cleaning

STEP 3 **UVnano™**

STEP 4 Plasmaster Ionizer Plus

# App. Convenient Remote Controller

Comfort & Convenience

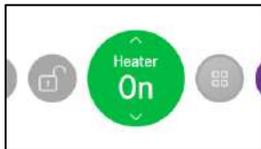

Standard III remote controller offers 4.3 inch LCD screen with luxurious design which well-matches interior design through simple button layout.

## Humidity Display

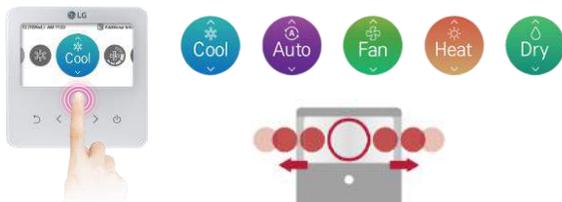

## External Equipment Control

- User can turn on or off the external equipment through 1 Digital Output port

## User Friendly Design

- Intuitive GUI design using circle theme

## Multi Language support

- English, French, German, Spanish, Italian Portuguese, Polish, Czech, Russian, Chinese

## 2 Set point

- Room temperature is decided by setting 2 set point for cooling and heating

## Optimized Schedule

- Easy making schedule from daily to yearly

Note : Some function may not work in some products

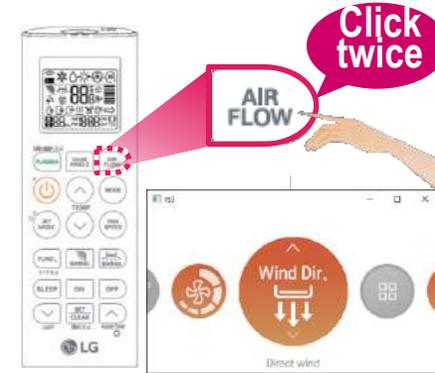

# App. Direct Wind

Dual Vane

Warm wind can be reaches up to 5m without a high ceiling kit.

## Recommended direct wind reach

Standard Ceiling  
~3.2m

High Ceiling  
~3.6m\*

Super High Ceiling  
5m\*

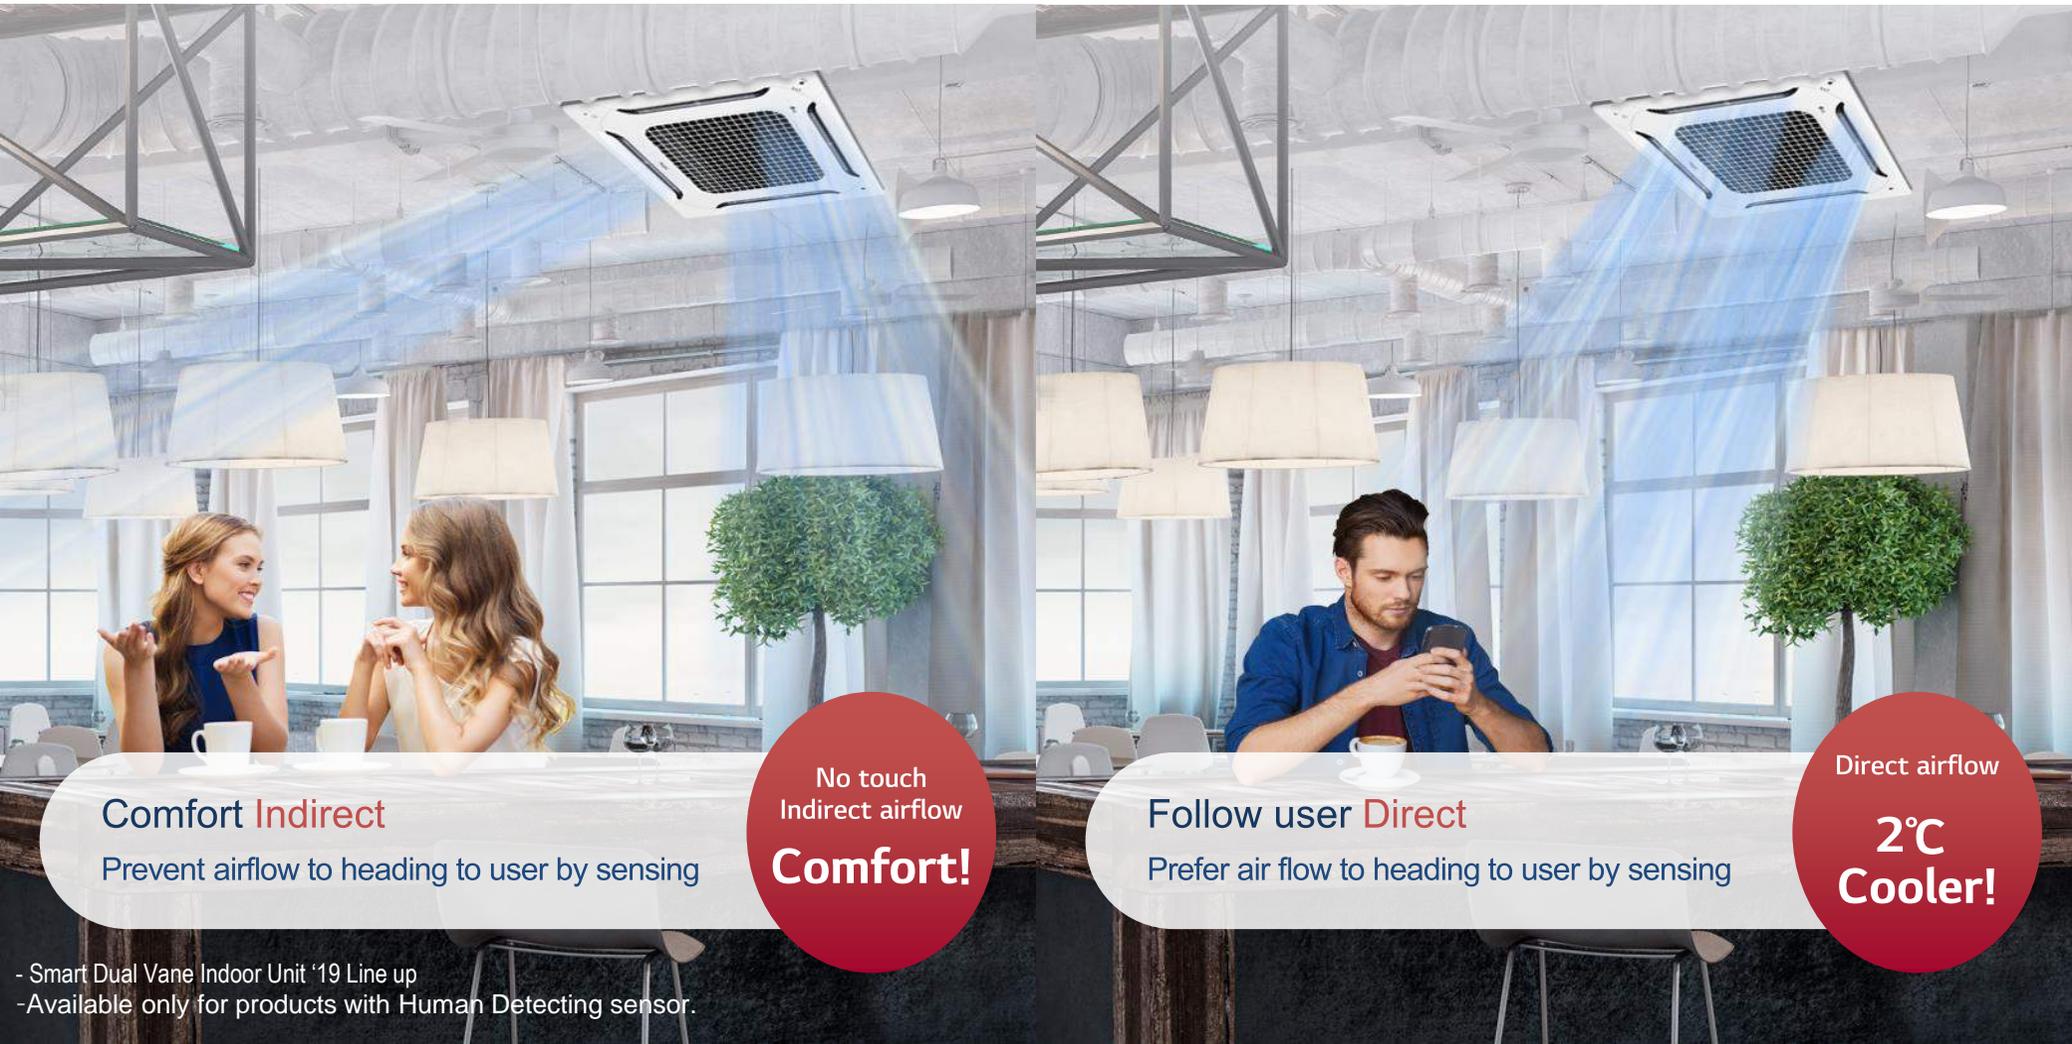

Power airflow

\* Settings are required in installer mode.

# App. Human Detection

Dual Vane

Human detection function identifies presence of people in order to provide pleasant airflow. The sensor detects when no one is present and stops / activates operation, saving 54% of energy.

Comfort **Indirect**

Prevent airflow to heading to user by sensing

No touch  
Indirect airflow

**Comfort!**

Follow user **Direct**

Prefer air flow to heading to user by sensing

Direct airflow

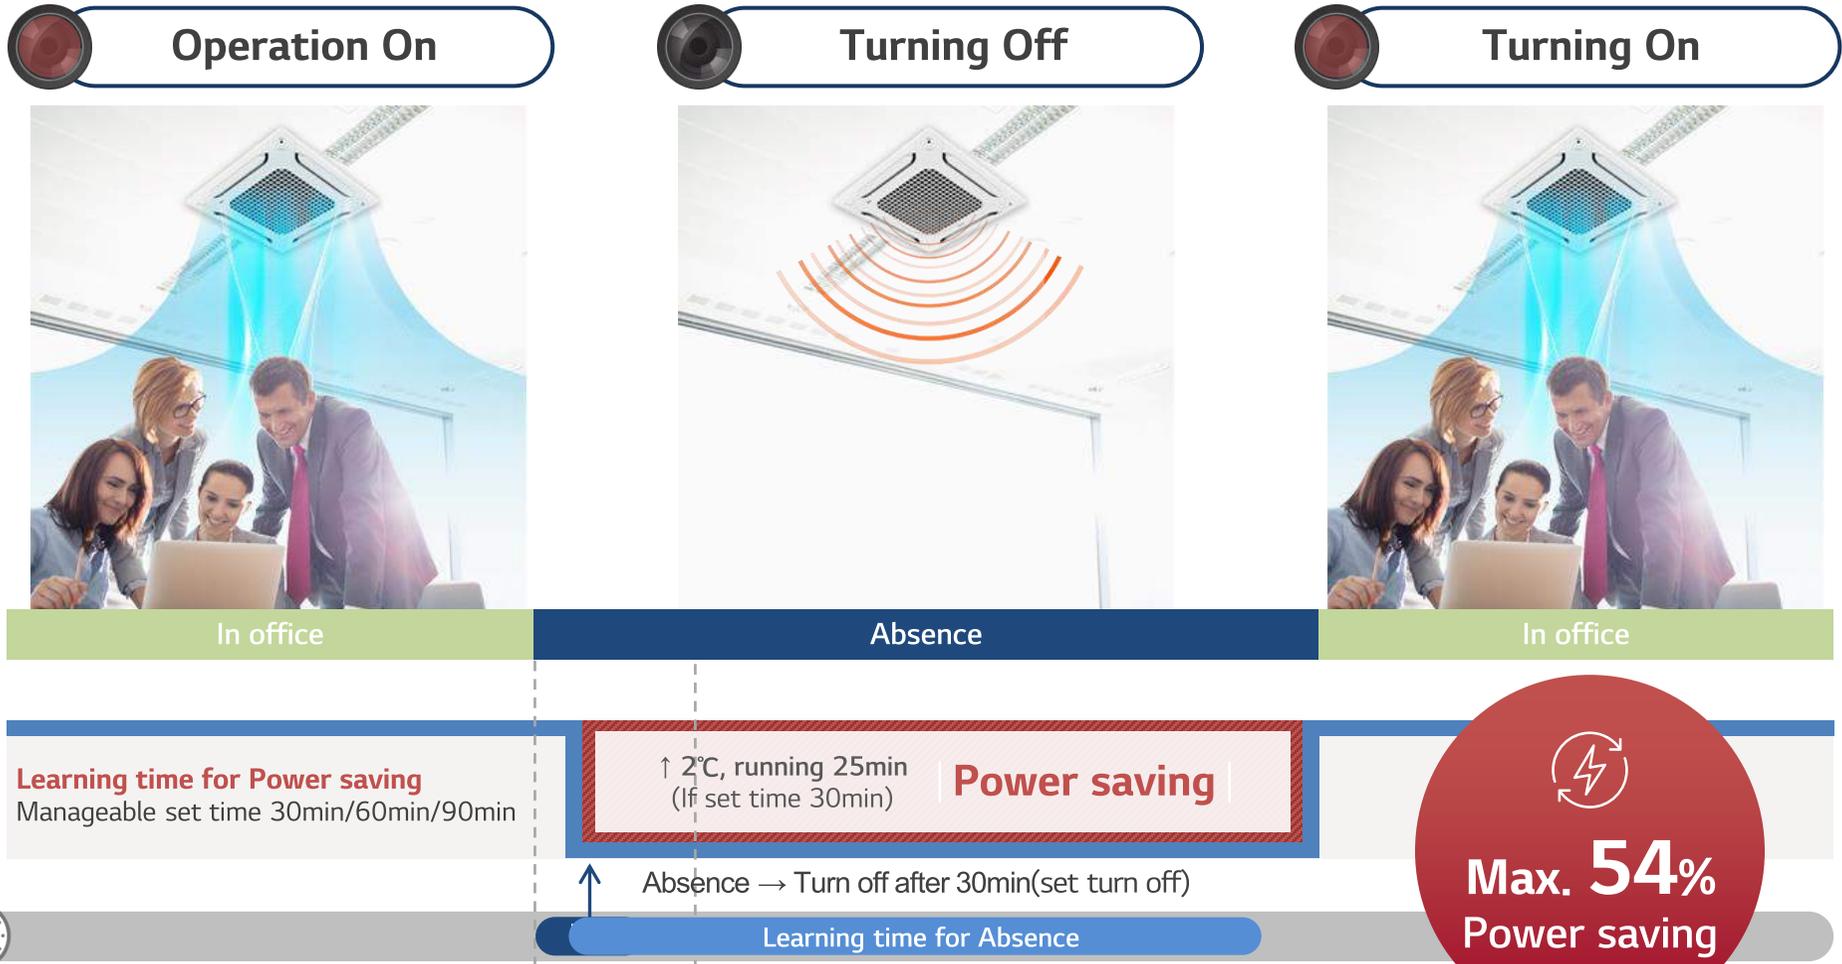

**2°C  
Cooler!**

- Smart Dual Vane Indoor Unit '19 Line up  
- Available only for products with Human Detecting sensor.

# App. Human Detection

Dual Vane

The sensor detects when no one is present and stops / activates operation, saving 54% of energy.

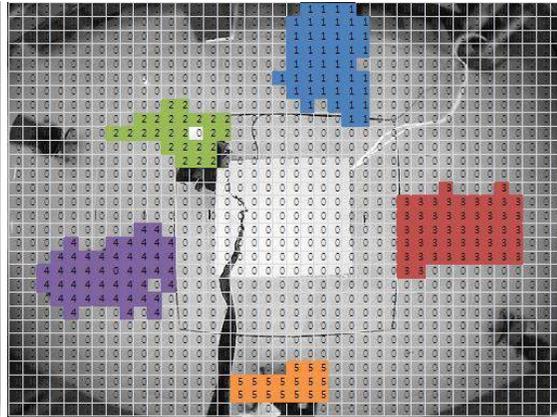

- Smart Dual Vane Indoor Unit '19 Line up  
-Data Based on actual test of LG, single product 2 hours measurement result(cooling 26 °C, power wind)

# App. Human Detecting Process

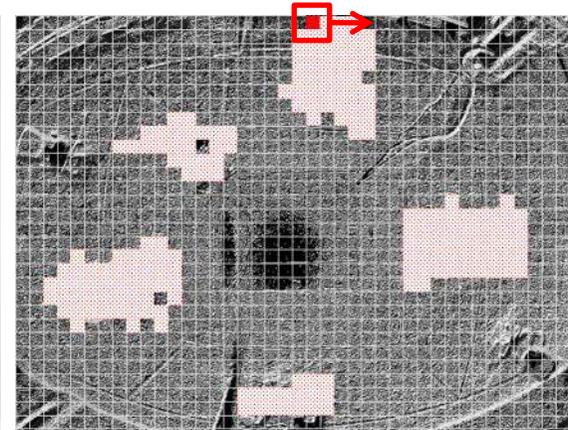

Step 1) Select candidates to be recognized as a human body based on motion detection.

Inputting Image

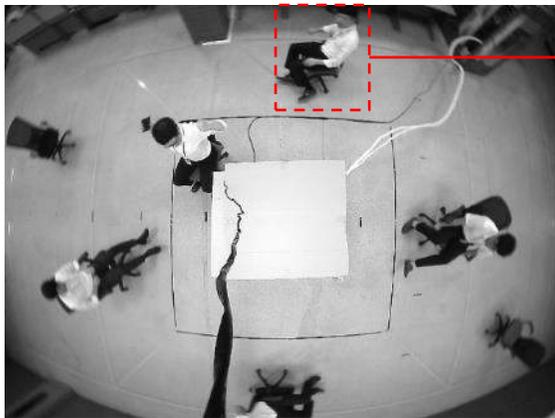

Detecting Motion

Selecting Human Body Candidates

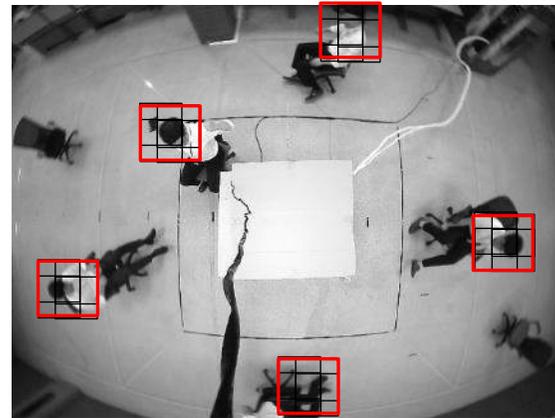

Step 2) Among selected human body candidates, judge whether it is human body or not through 5 stages sorter.
