- LG Single Split
- Total Line up
- Extended Solution
  - H-Inverter : High Performance
  - Standard : Wide Application
  - Compact : Maximize Space Utilization

R1 Compressor™

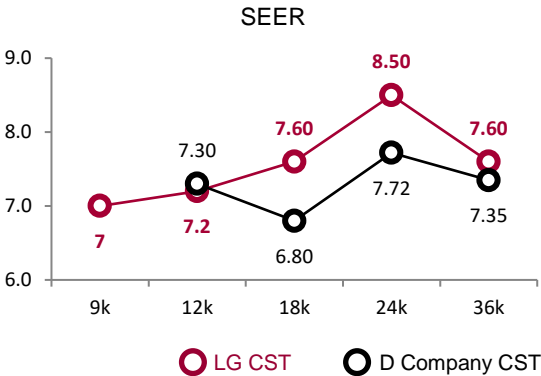

R1 Compressor is one that combines high-efficiency and the simple compressing structure.

- Assuring higher durability
- Lower Noise
- Lower Vibration
- Improve Reliability & Performance

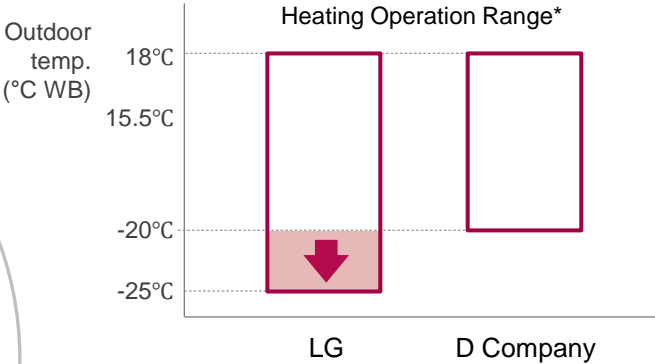

High Efficiency A+++

LG's advanced inverter technology brings high efficiency and performance.

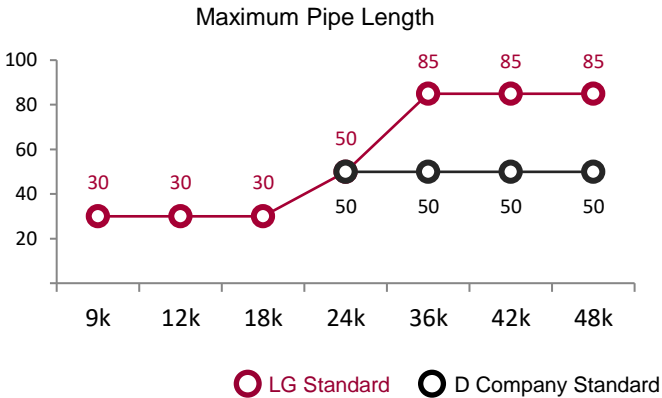

Wide Operation

LG's advanced inverter technology brings wide operation with high reliability.

Long Pipe Installation

LG provide long pipe installation for design flexibility

\* Specifications can be different as per each model or combination.

Customer has various options to select suitable model as desired condition.

H-INVERTER

High Performance

Max. pipe length up to 50m\*

\* This specification can be different as per each model or combination.

## Why LG Single Split?

---

- High Performance & Energy Saving
- Comfortable Environment
- Convenient Control System
- Enhanced Solutions

# Why LG Single Split?

## High Performance & Energy Saving

High SEER / SCOP | R1 Compressor™ | Dual Sensing Control | Human Detection | Quick & Reliable Operation  
Corrosion Resistance Black Fin | Continuous Cooling Operation | Long Pipe Installation

## Comfortable Environment

Maintain the Perfect Balance | Provide Low Noise

## Convenient Control System

LG ThinQ™ | Easy Control (Central Controller) | Mobile LGMV | Trouble Diagnosis (Black Box Function)

## Enhanced Solution

Synchro Function | Connection with AHU

The advanced technologies of LG achieve the high SEER value.

High Efficiency

\* Based on Ceiling Cassette (6.8 kW)

SEER / SCOP class (ErP regulation)

kW	2.5	3.4	5.0	6.8	8.0	9.5	Average
SEER	7.0	6.8	7.6	8.5	7.8	7.6	7.6
	A++	A++	A++	A+++	A++	A++	A++
SCOP	4.0	4.0	4.4	4.8	4.8	4.5	4.4
	A+	A+	A+	A++	A++	A+	A+

※ These values are based on the **H-Inverter model** and can be different as per combination.

• Energy Labeling (Europe Only)

	SEER	SCOP
A+++	SEER ≥ 8.5	SCOP ≥ 5.1
A++	6.1 ≤ SEER < 8.5	4.6 ≤ SCOP < 5.1
A+	5.6 ≤ SEER < 6.1	4.0 ≤ SCOP < 4.6
A	5.1 ≤ SEER < 5.6	3.4 ≤ SCOP < 4.0
B	4.6 ≤ SEER < 5.1	3.1 ≤ SCOP < 3.4
C	4.1 ≤ SEER < 4.6	2.8 ≤ SCOP < 3.1
D	3.6 ≤ SEER < 4.1	2.5 ≤ SCOP < 2.8

R1 Compressor is one that combines high-efficiency, low sound characteristics of the scroll and the simple compressing structure of the rotary compressor.

### Conventional Compressor

- **Scroll** : High efficiency / Low sound  
(Continuous compression, but complex structure)

- **Rotary** : Simple structure  
(Compression per 1 rotation)

### R1 Compressor™

- **Revolutionary Scroll**  
High efficiency / Stable & Simple Structure

- ✓ **Compression parts (upper → lower)**

Scroll penetrated by shaft  
→ remove tilting moment

- ✓ **Simple structure : without sub-frame**

Oil feeding structure better than previous scroll

**Extended operation (Max. 150Hz)**  
**Low noise & Vibration (Max. 4dB(A)↓)**  
**Less weight (20%↓)**

\* Patent registration number (S.Korea : 10-1059880, USA : RE46106)

※ R1 compressor is only applied to UUD1, UUD3

# Dual Sensing Control\_ Dry Summer

High Performance & Reliability

Dual sensing control is a function that changes evaporation temperature according to temperature & humidity.

## Previous

- Single sensing Smart Load Control (Temperature only)
- Excessive latent heat elimination regardless of humidity
- Waste Energy to eliminate latent heat

## New

- Dual sensing Smart Load Control (Temperature and Humidity)
- Comfortable environment by making the room less dry
- Increased Seasonal Efficiency

1) Te : Evaporating Temperature

\* Dual Sensing Control requires Standard III Wired Remote Controller(optional).

# Dual Sensing Control\_ Wet Summer

High Performance & Reliability

In wet summer season, the system senses the high humidity level and increases operating ratio to decrease humidity level rapidly for making room condition in comfort zone.

## Previous

- High humidity condition is not considered by only sensing the room temperature.
- General latent heat elimination regardless of humidity

## New

- Comfortable environment
- With quick latent heat elimination by sensing humidity
- At higher humidity, the compressor runs more powerfully

1)  $T_e$  : Evaporation Temperature

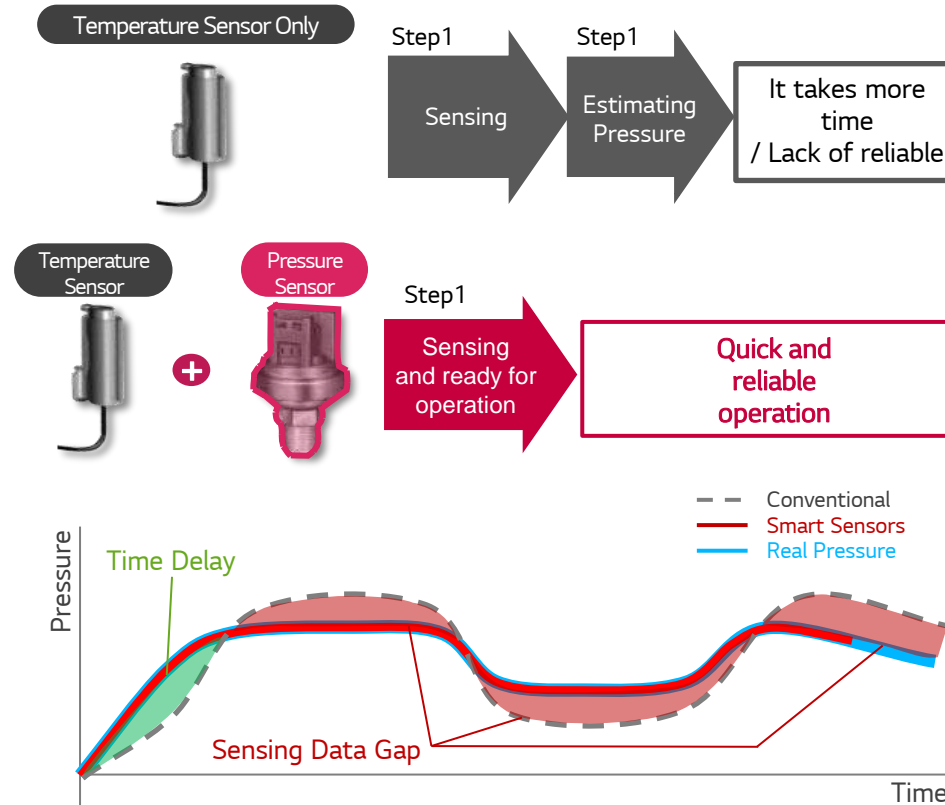

\* Dual Sensing Control requires Standard III Wired Remote Controller(optional)

# Quick & Reliable Operation

## High Performance & Reliability

Through pressure & temperature sensing, you can save time to reach the desired temperature.  
And high reliability is ensured by precise and precise control.

- Quick response due to sensing with ready for operation.
- Ensures to reach target performance point without compressor damage from liquid compression or oil shortage.

- Pressure control takes less time to reach the desired temperature up to 30% in cooling and 44% in heating with high levels of accuracy and stability.

### Cooling

### Heating

※ Based on internal test data

# Corrosion Resistance Black Fin

High Performance & Reliability

The black coating with enhanced epoxy resin is applied for strong protection from various corrosive external conditions such as salt contamination and air pollution including fumes from factories.

## Longer Lifespan, Lower Maintenance Costs

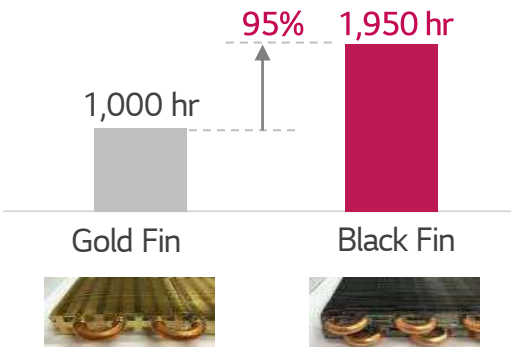

- **Hydrophilic film (Water flow)**  
The Hydrophilic coating minimizes moisture buildup on the fin.
- **Complex resin (Corrosion resistant)**  
The Black coating provides strong protection from corrosion
- **Aluminum Fin**

Note : Product is not fully treated for anti-corrosion. To install near the sea, additional treatment must be required.

### Salt Spray Test Result

(5% Area of defects compared to initial)

※ Test process is conducted according to ISO 9227.

### Cyclic Corrosion Test Result

(5% Area of defects compared to initial)

※ Test process is conducted according to ISO 14933.

※ **Verification of corrosion resistance performance**

- **ASTM B117 / ISO 9227**

**(10,000 hours)**

**(Last updated : Dec. 2020)**

# Continuous Cooling Operation

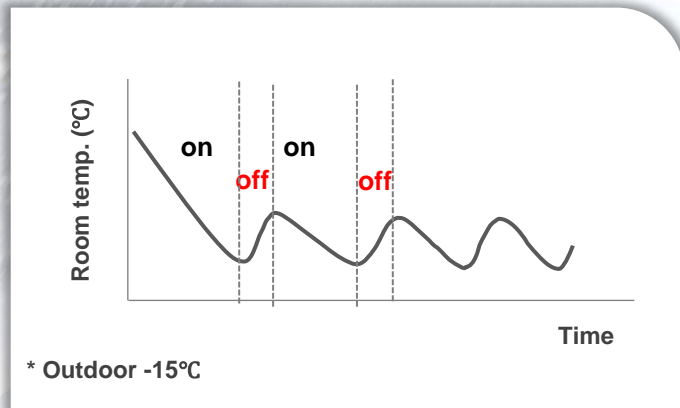

High Performance & Reliability

LG Single Split is able to perform continuous cooling at low ambient temperature. (down to  $-20^{\circ}\text{C}$ )

With wide operation range, it can be ideal solution for server, machine rooms and kitchen.

## Previous

- Repeat run and stop.

**STOP**

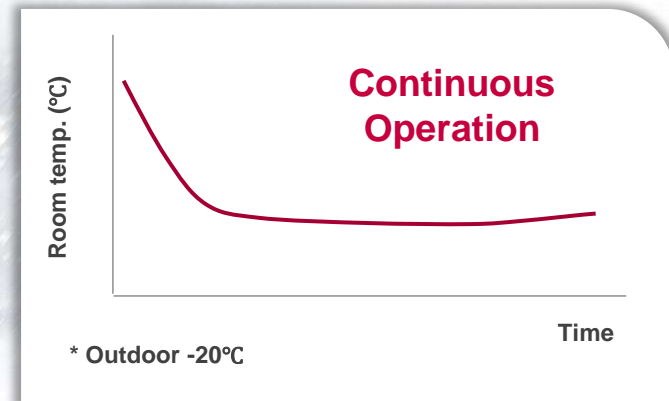

Repeated cooling stop  
at low ambient temp.

\* Based on a stand 9.5k model (before 2019)

## **SINGLE SPLIT**

- High and Stable cooling performance at low temperatures.

Continuous cooling  
at low ambient temp.

\* Based on a stand 9.5k model (2020)

# Long Pipe Installation

High Performance & Reliability

Maximum pipe length up to 85m and elevation length up to 30m provides flexibility for various condition and easy installation.

Model name	UUA1	UUB1	UUC1	UUD1/3
Maximum pipe length	30 m	30 / 35* m	50 m	85 m
Maximum Height Difference (ODU-IDU)	30 m	30 m	30 m	30 m

\* Compact 6.8 / 8.0kW

[Test condition]

- Location : LG HQ
- Installation : Apply the maximum pipe length by model
- Period : 3 month (checking oil level in real time)
- No use U-Trap

# Why LG Single Split?

## High Performance & Energy Saving

High SEER / SCOP | R1 Compressor™ | Dual Sensing Control | Human Detection | Quick & Reliable Operation  
Corrosion Resistance Black Fin | Continuous Cooling Operation | Long Pipe Installation

## Comfortable Environment

Maintain the Perfect Balance | Provide Low Noise

## Convenient Control System

LG ThinQ™ | Easy Control (Central Controller) | Mobile LGMV | Trouble Diagnosis (Black Box Function)

## Enhanced Solution

Synchro Function | Connection with AHU

# Maintain the Perfect Balance

Comfortable Environment

By sensing both temperature and humidity, this feature helps avoid over-cooling and dehumidification, maximizing comfort

**DUAL SENSING CONTROL**

Temperature + Humidity

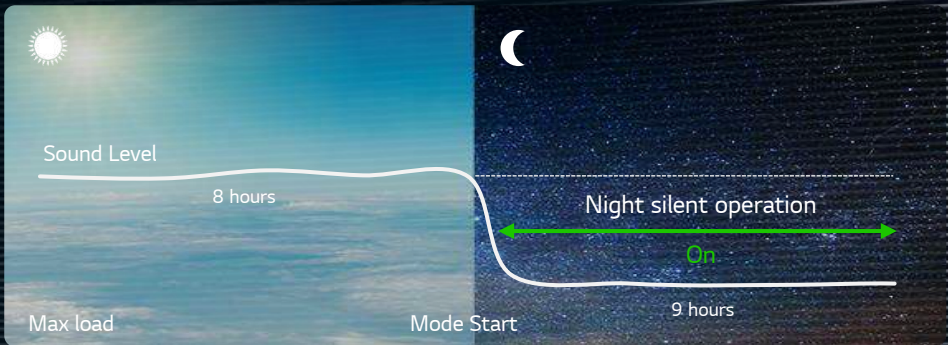

- Available only for products with Humidity Sensors.
- Accessories are ordered and purchased separately and Installed at field.

# Provide Low Noise

# Comfortable Environment

Decrease the noise with setting the wired remote controller.

 Up to 8dB(A)\*

※ Sound Pressure Level [dB(A)]

Capacity (kW)	Sound Pressure (dB)	
	Day	Night Silent
5.0	47	46
6.8	48	46
8.0	50	46
9.5	50	46
12.0	51	46
13.4	52	46
14.6	54	46

- ※ The value is based on the standard model maximum allowed air flow of cooling mode
- ※ Refer to the install manual for details. (Setting method, operation time)

\* The value is based on 14.6kW model.

# Why LG Single Split?

## High Performance & Energy Saving

High SEER / SCOP | R1 Compressor™ | Dual Sensing Control | Human Detection | Quick & Reliable Operation  
Corrosion Resistance Black Fin | Continuous Cooling Operation | Long Pipe Installation

## Comfortable Environment

Maintain the Perfect Balance | Provide Low Noise

## Convenient Control System

LG ThinQ™ | Easy Control (Central Controller) | Mobile LGMV | Trouble Diagnosis (Black Box Function)

## Enhanced Solution

Synchro Function | Connection with AHU

Control your air conditioners using the smart internet devices as Android or iOS based smartphones and voice commands via Google assistant & Amazon alexa.

### • Access your air conditioner anytime and from anywhere

### • Simple operation for various functions

- On/Off\*
- Mode Selection\*
- Current temperature\*
- Set temperature\*
- Set fan speed\*
- Vane Control

\* This functions are used by google assistant & amazon alexa

※ In some countries, the use of the google assistant & amazon alexa system may be restricted.

- Launched country : Germany, UK, Ireland, Austria, Switzerland, France, Spain, Italy, Russia, Norway, Netherland, Portugal, Turkey, Sweden, Denmark

※ Search "LG ThinQ" on Google or Apple store then download the app.

※ Wi-Fi modem (PWFMD200) is required.

# Easy Control (Central Controller)

## Convenient Control System

PI-485 is a gateway device that provides communication between LG Outdoor Units and LG central controllers such as ACP, AC Smart.

※ CN\_PWR:  
AC 220V Connector

※ BUS\_A & BUS\_B:  
RS-485 (+) & (-)

AC Ez Touch  
(PACEZA000)  
Max. 1 Channel  
**Max. 32 unit**

AC Smart 5  
(PACS5A000)  
Max. 2 Channels  
**Max. 128 unit**

ACP 5  
(PACP5A000)  
Max. 4 Channels  
**Max. 256 unit**

LGMV (Monitoring View) helps engineers to inspect and monitor air conditioning unit easily.

### Error Indicator

Error Code	Contents
01	Air temperature sensor of indoor unit
02	Inlet pipe temperature sensor of indoor unit
03	Communication error : Wired Remote Controller ↔ Indoor Unit
	⋮

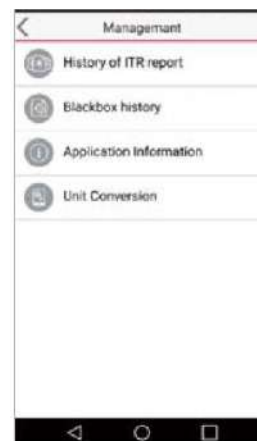

Cycle Monitoring

Diagnosis

Installation

Smart Management

A technician not only can check the cycle information with diagrams & graph, but also check easily the error status (troubleshooting guide) and take action immediately.

- ※ Search "Mobile LGMV" on Google or Apple store then download the app.
- ※ Wi-Fi modem (PWFMDD200) is required by option.

# Trouble Diagnosis (Black Box Function)

Convenient Control System

The operation status has been recorded until failure.

Service engineer can analysis trouble cause more easier when maintenance should be performed.

## Without black box function

Service engineer has to identify many causes of failure one by one.

Much time has been required to diagnose trouble

## With black box function (Only LG)

Service engineer can diagnose trouble cause by using recorded data.

Save time & improve accuracy of trouble diagnosis

The operation status has been recorded until failure.

Service engineer can check recorded data through smartphone when Wi-Fi module installed in door unit.

# Why LG Single Split?

## High Performance & Energy Saving

High SEER / SCOP | R1 Compressor™ | Dual Sensing Control | Human Detection | Quick & Reliable Operation  
Corrosion Resistance Black Fin | Continuous Cooling Operation | Long Pipe Installation

## Comfortable Environment

Maintain the Perfect Balance | Provide Customizable Comfort | Provide Clean Air | Provide Low Noise

## Convenient Control System

LG ThinQ™ | Easy Control (Central Controller) | Mobile LGMV | Trouble Diagnosis (Black Box Function)

## Enhanced Solution

Synchro Function | Connection with AHU

# Synchro Function

Enhanced Solution

Maximum 4 indoor units can be combined by using a branch kit and setting dip switch for one outdoor unit. It can be easily applied to various sites.

## Max. 4 IDUs combination

IDU (25% of total capacity) x 4EA  
= 100% of total capacity

\* Branch kit

# Connection with AHU

Enhanced Solution

Single split can be connected to AHU using communication kit.

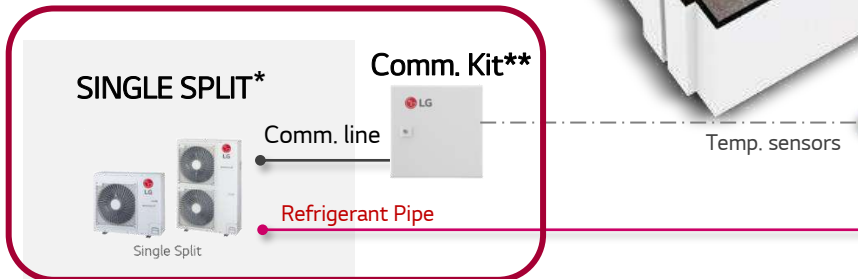

## S I M P L E

Simple and space saving

Easy installation

Low maintenance cost

Simple & Easy

\* The single model can be applied only to UUB1, UUC1, UUD1, UUD3

\*\* Model name of communication kit

- RA air temperature control : PAHCMR000
- SA air temperature control : PAHCMS000

## COMPLICATED

## What about Indoor Units?

---

- 4 Way Cassette
  - Dual Vane 4Way Cassette

## ***Dual Vane 4Way Cassette***

---

# Air Purification in Dual Vane 4 Way Cassette

## ■ Certified Air Purifying Performance

**Air Sterilizer**  
**Removed**  
**99.9% of the bacteria in 60minutes**  
**and**  
**99.4% of Virus in 30minutes**

**Indoor Air Cleaning**  
**Removed 99.9% of ultrafine dusts**  
**(size 50nm and 100nm)**

## ■ How It Works?

Air purifying kit does **no need replacement** and can be used **semi-permanently**.

※ Normally HEPA filter type must be replaced regularly.  
It means that it costs expensive for maintenance.

### LG Air Purification Kit

#### Ionizer

Deactivate bacteria and virus that cause food poisoning and pneumonia

#### Deodorization filter

High efficiency gas adsorption technology removes life odor & harmful gases

#### PM1.0 filter

Removes up to 99% of fine particle to ultrafine particle (Able to remove PM 1.0)

#### Dust Electrification<sup>2)</sup>

Anion increases the electrostatic force of particle & this improves filter's collecting efficiency

#### Pre-filter

Multi layer structure removes particle 2.5 times higher efficiency than general pre-filters and particle is reduced by 40% ↑

### LG Air Purification Panel

#### Smart Indicator

Color display by Air quality

Poor Unhealthy Moderate Good

1)

1) Example of bacteria : staphylococcus epidermidis, Example of virus : Phi-X174

2) It increases the electrostatic force of particle to improve collection efficiency.

※ Verifications of "the air purification kit" are only for removing airborne virus, and the other verification of the ionizer is for removing virus in the air and on the PM1.0 filter by dust electrification.

※ Ordered and purchased separately the accessory package referring to the model name provided and install at field.

# Signature Air Flows in Dual Vane 4 Way Cassette

## Premium Design

### ■ Luxury Dual Vane

Main Vane  
+  
Crystal Vane

### ■ New inlet design.

### ■ Clean and pure white color

• Morning Fog  
(RAL 120-4)

• Ivory White  
(RAL 9003)

## Various Air flow

### Power Cool / Power Heat

Airflow is dynamically moved and controlled in power mode, Evenly and quickly distributing air to every part of a large space

- Time to reach set temperature  
From 31°C to 26°C temperature

### Indirect Wind

It keeps space cool and comfortable without delivering the cold air directly to people.

- Single Vane

Angle : 30°

- Dual Vane

Angle : 16°

### Direct Wind

Warm wind can reach up to 5m with plenty air volume. (@ 0.5m/s)

### Up/Down Swing

Moves the vanes up and down to stir the room air and reaches the set temperature evenly.

Dual Vane 4Way Cassette **95.3%**

Previous 4Way CST : 79.2%

### Smart Mode

Smartly keeps set temperature by adjusting the wind direction automatically.

1. Operates in Power mode until the set temp.
2. When the set temperature is reached a cool airflow is generated in indirect mode.
3. When the temperature rises, Power mode will be turned on in order to keep the set temperature.

### Refresh Mode

Adjust the temperature of the direct and indirect wind to create a comfortable and efficiency working environment. Especially suitable for meeting rooms, schools and library.

## ***Mini 4Way Cassette***

---

# Compact Size

## Mini 4Way Cassette

Slim & compact design not only saves space but also reduces installation costs.

It's designed to suit most of building designs and fit into various spaces without extra ceiling cutting.

Length Width : 570 X 570 mm

- H** : H-Inverter
- S** : Standard
- C** : Compact

# Convenient Panel Installation

Mini 4Way Cassette

The detachable corner design makes it easy to adjust the hanger during installation and to check for leakages in the drain connection pipe. And it is easy to install the panel to the body, using the button type panel design.

## Detachable Corner Design

Drain Leakage Check

Hanger adjust

## One Push Panel

## ***Round Cassette***

---

# Air Purification in Round Cassette

## ■ Certified Air Purifying Performance

**Air Sterilizer**  
**Removed**  
**99.9% of the bacteria in 60minutes**  
**and**  
**99.4% of Virus in 30minutes**

**Indoor Air Cleaning**  
**Removed 99.9% of ultrafine dusts**  
**(size 50nm and 100nm)**

## ■ How It Works?

### Smart Indicator

Color display by Air quality

### LG Air Purification Kit

### Deodorization filter

High efficiency gas adsorption technology removes life odor & harmful gases

### PM1.0 filter

Removes up to 99% of fine particle to ultrafine particle (Able to remove PM 1.0)

### Dust Electrification<sup>2)</sup>

Anion increases the electrostatic force of particle & this improves filter's collecting efficiency

### Pre-filter

Multi layer structure removes particle 2.5 times higher efficiency than general pre-filters and particle is reduced by 40% ↑

Air purifying kit does **no need replacement** and can be used **semi-permanently**.

※ Normally HEPA filter type must be replaced regularly. It means that it costs expensive for maintenance.

1) Example of bacteria : staphylococcus epidermidis, Example of virus : Phi-X174

2) It increases the electrostatic force of particle to improve collection efficiency.

※ Verifications of "the air purification kit" are only for removing airborne virus, and the other verification of the ionizer is for removing virus in the air and on the PM1.0 filter by dust electrification.

※ Ordered and purchased separately the accessory package referring to the model name provided and install at field.

# Round Cassette

Since LG has designed a slimmer body and a simpler piping, it can provide better design for open ceiling.

## Air Purification in Round Cassette

## Seems an area bigger with 15% Slimmer body

※ Product: 48 kBTu/h

## Looks immaculate with Minimal exposure design

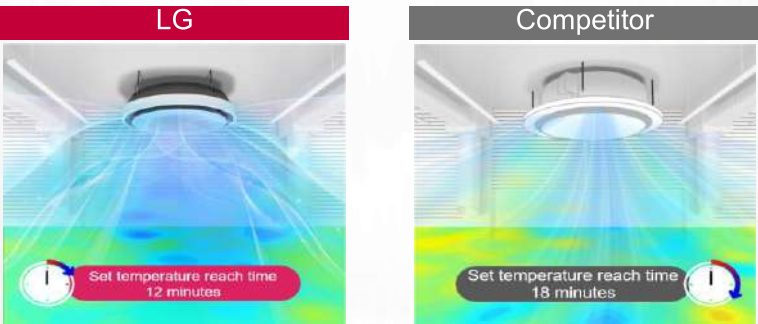

We are able to provide full wind without blind spot, and 6 steps of airflow control with the crystal vane is also contributed to maximize comfort. Moreover, 3D fan strongly support quick and big air volume.

## Comfort Feeling by circular airflow without blind spots.

## Comfort Feeling by 30% Faster Cooling

※ Height : Installation 3.2m, Measurement 1.1m

## ***Duct***

---

- Mid. Static Duct
- Low Static Duct

# Mid. Static Duct

## Low Noise

The optimal design for indoor units reduces noise to 23dB(A) to maintain a quiet and comfortable indoor environment.

## Auto E.S.P. Control<sup>\*)</sup>

The product can control airflow volume by automatically sensing the discordance between the airflow volume and the external static pressure.

## MID. STATIC DUCT

## Air Purification with UV-C LED T.B.D.

Air purification kit includes MERV13 Filter and UV-C LED module. MERV13 Filter with Anti-bacterial material purifies indoor air. UV-C LED sterilizes germs on MERV13 Filter.

- **MERV13 filter to capture micro fine dust including virus**
  - The material of the filter is anti-bacterial, so it inhibits the ability of virus to grow on the surface of filter.
  - Low pressure drop

### UV<sub>nano</sub>

- **UV-C LED to sterilize 99.99% of the germs captured**

<sup>\*)</sup> Auto E.S.P. will be applied on July 2021.

# Low Static Duct

## Low Noise

The optimal design for indoor units reduces noise to 22dB(A) to maintain a quiet and comfortable indoor environment.

## Auto E.S.P. Control

The product can control airflow volume by automatically sensing the discordance between the airflow volume and the external static pressure.

## LOW STATIC DUCT

## Flexible Installation

It can be installed in limited space. because you can choose air intake from either rear or bottom of the unit.

## Minimized Height

New Low-static duct provide ideal solution for installation in limited space.

## ***Console***

---

# Console

## 3 Types of Air Flow

LG console has 3 types of airflow. It will provide comfortable airflow for customers in heating and cooling operations.

**Console**

## Compact Size

Compact size is less constrained by space.

## Low Noise

An optimal design for indoor units with minimal noise level.

## ***Wall Mounted Unit***

---

# Wall Mounted Unit

**LG Small Server Room Cooling Solution** provides these values; Stable & Reliable operation, saving cost, Easy installation and Convenience that the server room and users need.

## Plasmaster<sup>™</sup> Ionizer<sup>PLUS</sup>

The powerful plasma ionizer protects you from odors and harmful substance.

Intertek

→ **Sterilization and Deodorization**  
(Utilizes Over 3 Million Ions)

## Performance

LG provides several methods of fast cooling and heating.

→ **Fast Cooling**

The cool air flow reaches all the corners of the room, keeping the space cool and comfortable.

→ **Fast Heating**

It is possible to create a warm and comfortable living environment by heating a wider space in a shorter time

## Comfort

LG Air Conditioner provides soft and comfortable air to your living space.

→ **Comfort Vane**

Set vane angle by cooling or heating

→ **LG's Unique Skew Fan**

By minimizing the surface pressure

→ **BLDC Fan Motor**

By Precise speed control with strong torque and powerful ND magnetism

→ **ALVC (Active Low Vibration Control)**

By a speed-error component estimates the load to compensate for imbalances

## Convenience

LG provides convenient installation, and the unit has auto cleaning.

→ **Auto Cleaning**

The interior of the air conditioner is maintained clean by drying off the heat exchanger, then sterilizing the interior once more.

→ **Quick & Easy Installation**

By reducing the manpower and time required for installation, it is now possible to install in a shorter period of time.

## ***Ceiling Suspended***

---

# Ceiling Suspended Unit

## Differentiated Design

## Powerful Cooling & Heating

### Outlet Space

### Optimized the Airflow Path

105% IMPROVED

## Two Thermistors Control

## Easy Installation

1) Cooling and heating up to 4.2m in height from floor, 15m away from ceiling.

## ***AHU Communication Kit***

---

*SIMPLE*

## Low maintenance cost

Single Split

Temp. sensors

## AHU

**COMPLICATED**

## Complicated piping work

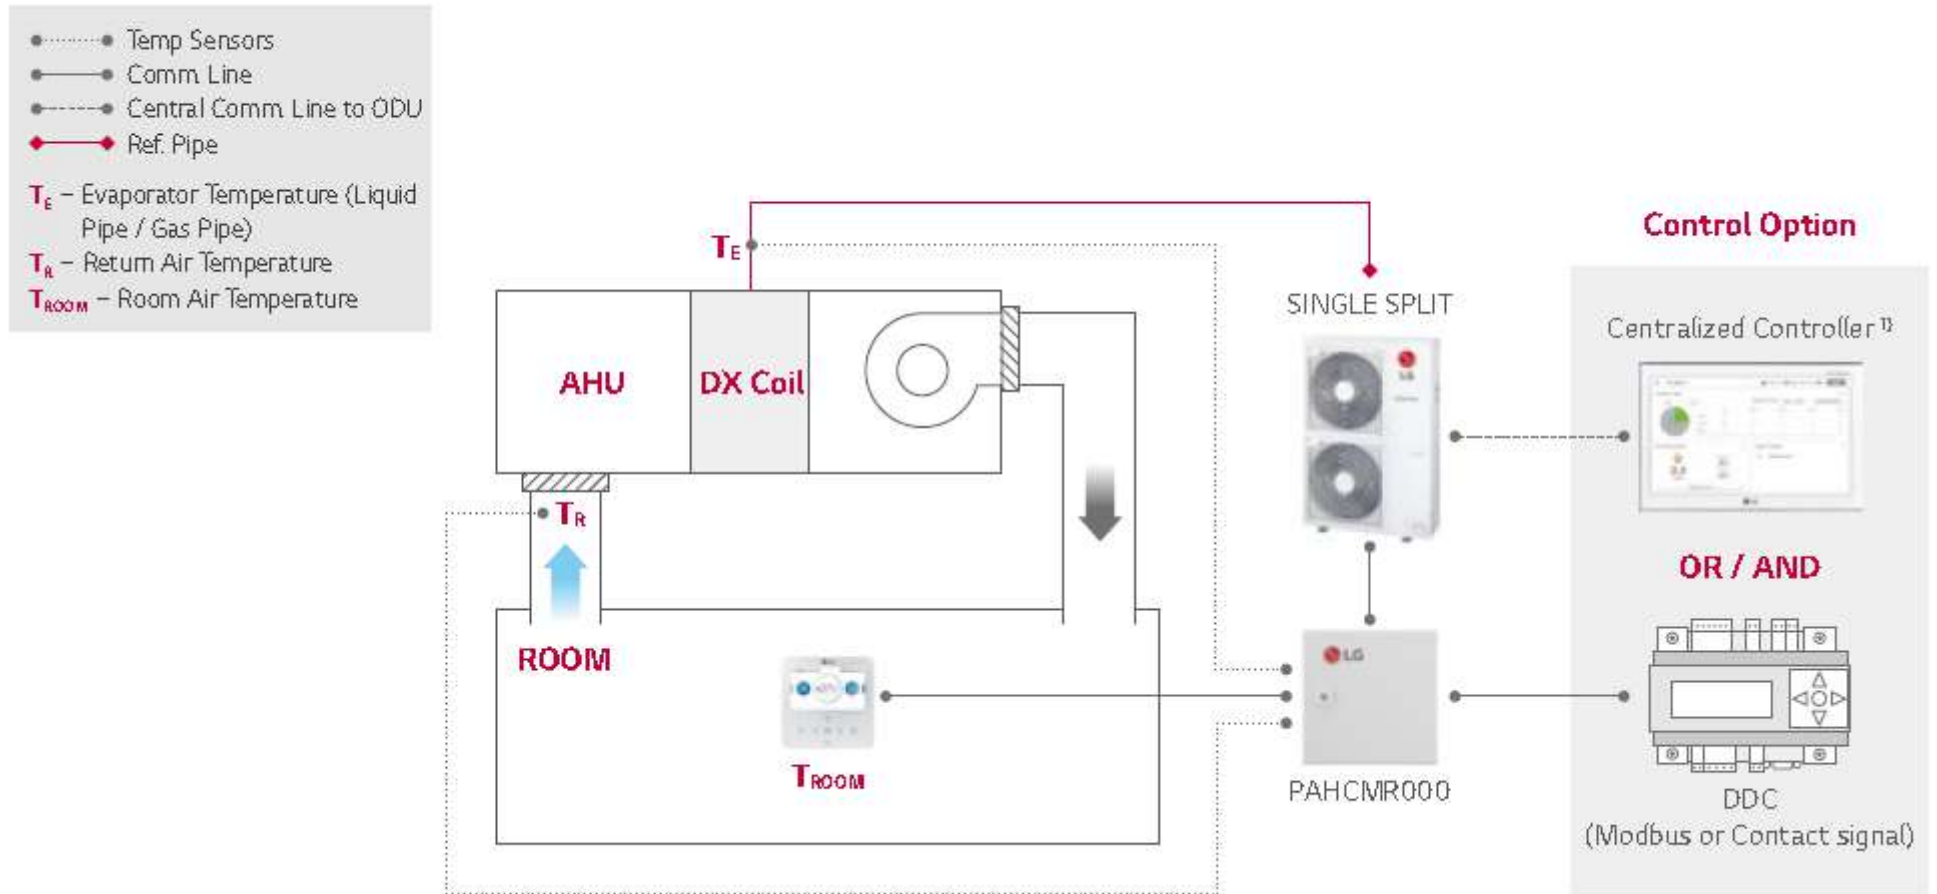

- SA air temperature control : PAHCMS000

# AHU Communication Kit

Single split can be connected to AHU using communication kit.

## Return/Room Air Temperature Control

# AHU Communication Kit

Single split can be connected to AHU using communication kit.

## Discharge Air Temperature Control

1) PI485(PMNFP14A1) is required for using centralized controller.

2) In case of applying DDC with contact signal, discharge air temperature should be measured and controlled by DDC.

3) For more detail, please refer to the PDB of AHU Communication Kit.

## Segment Application

---

- Premium Solution for Retail – Ceiling Mounted Cassette
- Customized Solution for Office – Ceiling Mounted Cassette
- Comfort Solution for Residential – Ceiling Concealed Duct
- Optimized Solution for Technical – Wall Mounted

Maximizing business, minimizing cost

### Premium Design & Customer Oriented Functions

- Premium interior with brighter(white) panel suit your shop
- Customer oriented functions with intelligent functions (Direct/Indirect Mode)
- Uniform space cooling & heating by power cooling & heating mode

### Energy Savings

- Low operation cost by High SEER products
- Adjust evaporating temperature by dual sensing (Humidity + Temperature)
- Various energy saving solutions (scheduling, energy monitoring and interlocking)
- Real-time energy monitoring

### Ease of Operation and Maintenance

- Convenient control via smartphone
- Intuitive wired remote controller

Supporting efficiency with fresh and comfort air

### Comfortable Office Environment

- Human oriented air flow (Direct/Indirect/Refresh mode)
- Foot thermal comfort by floor temperature detection
- Powerful performance by power cooling & heating mode
- High ceiling operation such as lobbies and reception areas (Max. 5m)

### Energy Savings

- Adjust evaporating temperature by dual sensing
- Low operation cost with High SEER products
- Auto on/off operation by human detection
- LG's smart central controller provides a variety of energy saving solutions (scheduling, interlocking, peak control and energy navigation)

### Ease of Operation and Maintenance

- Convenient control via smartphone
- Easy maintenance by elevation grill
- Convenient diagnosis by black box function

Creating a comfortable home with low cost

### Simple & low cost Installation for Entire House

- Cooling or heating for several rooms with one set of Ceiling Concealed Duct
- Easy control of air volume for each rooms by zone controller accessory
- Flexible installation by ESP\* control

### Energy Savings

- Low operation cost with High SEER product
- Various energy saving solutions (scheduling, energy monitoring and interlocking)

### Ease of Operation

- Anytime, anywhere control via smartphone
- Intuitive wired remote controller

\* ESP : External Static Pressure

Reliable and efficient technical cooling

### Reliability

- Continuous cooling operation at -20 ~ 52°C\*
- Quick & Reliable operation with temperature & pressure control
- Round-the-clock cooling (24h, 365 days)
- Power cooling mode for peak time
- Duty operation via server room controller

### Energy Savings

- Low operation cost by High SEER product
- Real-time energy monitoring

### Ease of Operation and Maintenance

- Convenient control via smartphone or centralized control
- Immediate diagnosis via mobile LGMV
- Accurate diagnosis via black box function

\* This specification can be different as per each model or combination.

# App. Differentiated Specification

LG Single split provide differentiated features(performance/installation/convenience) by each product line.

Items		H-INVERTER	STANDARD	COMPACT	19Y Standard (R32)

\* Based on internal test data for **6.8kW** model.  
(compared to 19Y standard model)

※ This specification can be different as per each model or combination.  
※ In the case of cassette model, note that the function depends on the application of recommended decoration panel.

# App. Accessory Installation

## Wi-Fi Modem (PWFMDD200)

### 4Way Ceiling Cassette

### Ceiling Suspended Unit

### Ceiling Concealed Duct

※ Wi-Fi pairing setting is possible with RS3 or RS2 wired remote controller. (PREMTB100 / PREMTB10 / PREMTB001 / PREMTBB01)

※ Wi-Fi default panel (PT-AFGW0, PT-AEGW0), Wi-Fi accessory panel (PT-AAGW0)

## Human detection sensor (PTVSAA0)

### 4Way Ceiling Cassette

# App. Individual Controller

• B&W : Black & White
